Subject Index

Volume 12, January–December 1992

A

Abdominal aorta
Apo B Insertion/Deletion Polymorphisms Are Associated With Atherosclerosis in Young Black but Not Young White Males, 1023

Acetyl low density lipoprotein receptor
Further Characterization of the Acetyl LDL (Scavenger) Receptor Expressed by Rabbit Smooth Muscle Cells and Fibroblasts, 1235

Acetylated low density lipoproteins
Characterization of the Interaction of Acetylated LDL and Oxidatively Modified LDL With Human Liver Parenchymal and Kupffer Cells in Culture, 1079

Acetylcholine
Effect of Induced Hypercholesterolemia in Rabbits on Functional Responses of Isolated Large Proximal and Small Distal Coronary Arteries, 380

***N*-Acetylcysteine**
Attenuation of Immunologic Reactivity of Lipoprotein(a) by Thiols and Cysteine-Containing Compounds: Structural Implications, 424

Acid cholesterol esterase
β-VLDL–Induced Cholesterol Ester Deposition in Macrophages May Be Regulated by Neutral Cholesterol Esterase Activity, 1139

Acoustic microscopy
Quantification of Atherosclerotic Plaque Composition in Cholesterol-Fed Rabbits With 50-MHz Acoustic Microscopy, 1227

Activated platelets
Activation of Platelets in Blood Perfusing Angioplasty-Damaged Coronary Arteries: Flow Cytometric Detection, 1475

Activation
T Lymphocytes in Human Atherosclerotic Plaques Are Memory Cells Expressing CD45RO and the Integrin VLA-1, 206

Activation-specific antiplatelet monoclonal antibodies
Activation of Platelets in Blood Perfusing Angioplasty-Damaged Coronary Arteries: Flow Cytometric Detection, 1475

Acyl coenzyme A:cholesterol acyltransferase
β-VLDL–Induced Cholesterol Ester Deposition in Macrophages May Be Regulated by Neutral Cholesterol Esterase Activity, 1139
Evidence for an Altered Lipid Metabolic State in Circulating Blood Monocytes Under Conditions of Hyperlipemia in Swine and Its Implications in Arterial Lipid Metabolism, 155
Hepatic ACAT Activity in African Green Monkeys Is Highly Correlated to Plasma LDL Cholesteryl Ester Enrichment and Coronary Artery Atherosclerosis, 1274

Adaptive dilatation
Difference in Dilatation Between Endothelium-Preserved and -Desquamated Segments in the Flow-Loaded Rat Common Carotid Artery, 519

Adenylate cyclase
Clopidogrel Inhibits the Binding of ADP Analogues to the Receptor Mediating Inhibition of Platelet Adenylate Cyclase, 430

Adhesion
Polymorphonuclear Leukocyte Adhesion to Endothelial Cells Is Inhibited by Resting Platelets, 1420

ADP
Effect of Atherosclerosis on Responses of the Perfused Rabbit Carotid Artery to Human Platelets, 1206

ADP receptor
Clopidogrel Inhibits the Binding of ADP Analogues to the Receptor Mediating Inhibition of Platelet Adenylate Cyclase, 430

Age
Role of the Extracellular Matrix in Age-Related Modifications of the Rat Aorta: Ultrastructural, Morphometric, and Enzymatic Evaluations, 1008

Aged
Plasma Lipids and Lipoproteins and the Incidence of Cardiovascular Disease in the Very Elderly: The Bronx Aging Study, 416

Aggregation
Clopidogrel Inhibits the Binding of ADP Analogues to the Receptor Mediating Inhibition of Platelet Adenylate Cyclase, 430

Aggregin
Clopidogrel Inhibits the Binding of ADP Analogues to the Receptor Mediating Inhibition of Platelet Adenylate Cyclase, 430

AHA Council on Arteriosclerosis
The Origin of the Council on Arteriosclerosis, 543

AHA Medical Scientific Statement
A Definition of the Intima of Human Arteries and of Its Atherosclerosis-Prone Regions: A Report From the Committee on Vascular Lesions of the Council on Arteriosclerosis, American Heart Association, 120

Albumin
Effect of Endothelial Integrity, Transmural Pressure, and Time on the Intimal–Medial Uptake of Serum ^{125}I-Albumin and ^{125}I-LDL in an In Vitro Porcine Arterial Organ-Support System, 1313

Alcohol
Upper-Body Fat Distribution: A Hyperinsulinemia-Independent Predictor of Coronary Heart Disease Mortality: The Paris Prospective Study, 1387

Alcohol consumption
Determinants of Plasma Fibrinogen: Relation to Body Weight, Waist-to-Hip Ratio, Smoking, Alcohol, Age, and Sex: Results From the Second MONICA Augsburg Survey, 1989–1990, 780

Alcohol use
Lipoprotein Profile of a Greenland Inuit Population: Influence of Anthropometric Variables, Apo E and A4 Polymorphism, and Lifestyle, 1371

American Society for the Study of Arteriosclerosis
The Origin of the Council on Arteriosclerosis, 543

ε-Aminocaproic acid
Antifibrinolytic Activities of α-*N*-Acetyl-L-Lysine Methyl Ester, ε-Aminocaproic Acid, and Tranexamic Acid: Importance of Kringle Interactions and Active Site Inhibition, 708

Amphipathic helix
Turnover of Synthetic Class A Amphipathic Peptide Analogues of Exchangeable Apolipoproteins in Rats: Correlation With Physical Properties, 886

Animal models
Flow Affects Development of Intimal Hyperplasia After Arterial Injury in Rats, 963
Superoxide-Dependent Stimulation of Leukocyte Adhesion by Oxidatively Modified LDL In Vivo, 824

Anthropometric factors
Lipoprotein Profile of a Greenland Inuit Population: Influence of Anthropometric Variables, Apo E and A4 Polymorphism, and Lifestyle, 1371

Antibody titers
Smoking Is a Potential Confounder of the *Chlamydia pneumoniae*–Coronary Artery Disease Association, 945

Anticardiolipin antibodies
Plasma From Systemic Lupus Erythematosus Patients With Antiphospholipid Antibodies Promotes Platelet Aggregation: Studies in a Perfusion System, 196

Antioxidant enzymes
Immunolocalization of Native Antioxidant Scavenger Enzymes in Early Hypertensive and Atherosclerotic Arteries: Role of Oxygen Free Radicals, 403

Antioxidants
Effect of Probucol Dosage on Plasma Lipid and Lipoprotein Levels and on Protection of Low Density Lipoprotein Against In Vitro Oxidation in Humans, 318
Glutathione-Related Enzyme Activities and Lipoperoxide Levels in Human Internal Mammary Artery and Ascending Aorta: Relations With Serum Lipids, 92

Antiphospholipid antibodies
Plasma From Systemic Lupus Erythematosus Patients With Antiphospholipid Antibodies Promotes Platelet Aggregation: Studies in a Perfusion System, 196

α_2-Antiplasmin
Antifibrinolytic Activities of α-*N*-Acetyl-L-Lysine Methyl Ester, ϵ-Aminocaproic Acid, and Tranexamic Acid: Importance of Kringle Interactions and Active Site Inhibition, 708

Antistasin
Selective Factor Xa Inhibition by Recombinant Antistasin Prevents Vascular Graft Thrombosis in Baboons, 879

Aorta
Effect of Dietary Olive and Sunflower Oils on the Lipid Composition of the Aorta and Platelets and on Blood Eicosanoids in Rats, 830
Effect of Endothelial Integrity, Transmural Pressure, and Time on the Intimal–Medial Uptake of Serum ^{125}I-Albumin and ^{125}I-LDL in an In Vitro Porcine Arterial Organ-Support System, 1313
Glutathione-Related Enzyme Activities and Lipoperoxide Levels in Human Internal Mammary Artery and Ascending Aorta: Relations With Serum Lipids, 92
Role of the Extracellular Matrix in Age-Related Modifications of the Rat Aorta: Ultrastructural, Morphometric, and Enzymatic Evaluations, 1008

Aortic low density lipoproteins
Scavenger Receptor–Independent Stimulation of Cholesterol Esterification in Macrophages by Low Density Lipoprotein Extracted From Human Aortic Intima, 608

Aortic permeability
Aortic Permeability to LDL as a Predictor of Aortic Cholesterol Accumulation in Cholesterol-Fed Rabbits, 1402

Apolipoprotein A-I
A DNA Polymorphism for LCAT Is Associated With Altered LCAT Activity and High Density Lipoprotein Size Distributions in Baboons, 682
Familial Correlations of HDL Subclasses Based on Gradient Gel Electrophoresis, 1467
High Density Lipoprotein Deficiency Syndrome in Chickens Is Not Associated With an Increased Susceptibility to Atherosclerosis, 601
In Vivo Metabolism of Apolipoprotein A-I in a Patient With Homozygous Familial Hypercholesterolemia, 843
Interaction Between a Polymorphism of the Apo A-I Promoter Region and Smoking Determines Plasma Levels of HDL and Apo A-I, 1017
Relation Between 25-Hydroxyvitamin D_3, Apolipoprotein A-I, and High Density Lipoprotein Cholesterol, 671
The Role of Cholesteryl Ester Transfer Protein in Primate Apolipoprotein A-I Metabolism: Insights From Studies With Transgenic Mice, 736

Apolipoprotein B
Apo B Insertion/Deletion Polymorphisms Are Associated With Atherosclerosis in Young Black but Not Young White Males, 1023
Apolipoprotein B mRNA Abundance Is Decreased by Eicosapentaenoic Acid in CaCo-2 Cells: Effect on the Synthesis and Secretion of Apolipoprotein B, 691
Characterization of Apolipoprotein B mRNA Editing From Rabbit Intestine, 172
Diagnosis of Heterozygous Familial Hypercholesterolemia: DNA Analysis Complements Clinical Examination and Analysis of Serum Lipid Levels, 584
Familial Combined Hyperlipidemia and Abnormal Lipoprotein Lipase, 1176
Lipoproteins and Their Genetic Variation in Subjects With and Without Angiographically Verified Coronary Artery Disease, 58
Pathogenesis of Carbohydrate-Induced Hypertriglyceridemia Using HepG2 Cells as a Model System, 271
Relation Between 25-Hydroxyvitamin D_3, Apolipoprotein A-I, and High Density Lipoprotein Cholesterol, 671
Role of Apolipoprotein E on Cholesteryl Ester–Enriched Low Density Lipoprotein Particles in Coronary Artery Atherosclerosis of Hypercholesterolemic Nonhuman Primates, 28
The Effect of Interferon on the Metabolism of LDLs, 1053
The Role of Cholesteryl Ester Transfer Protein in Primate Apolipoprotein A-I Metabolism: Insights From Studies With Transgenic Mice, 736

Apolipoprotein B-48
Characterization of Apolipoprotein B mRNA Editing From Rabbit Intestine, 172

Apolipoprotein B gene
Does the *Eco*RI Polymorphism in the Human Apolipoprotein B Gene Affect the Binding of Low Density Lipoprotein to the Low Density Lipoprotein Receptor? 256

Apolipoprotein B metabolism
Dietary Fish Oil Plus Lovastatin Decreases Both VLDL and LDL Apo B Production in Miniature Pigs, 902

Apolipoprotein E
Apo B Insertion/Deletion Polymorphisms Are Associated With Atherosclerosis in Young Black but Not Young White Males, 1023
Cholesterol Absorption, Elimination, and Synthesis Related to LDL Kinetics During Varying Fat Intake in Men With Different Apoprotein E Phenotypes, 1044
Cholesterol and Triglyceride Fatty Acid Synthesis in Apolipoprotein E2–Associated Hyperlipidemia, 106
Diagnosis of Heterozygous Familial Hypercholesterolemia: DNA Analysis Complements Clinical Examination and Analysis of Serum Lipid Levels, 584

Apolipoprotein E phenotype
Delayed Clearance of Postprandial Chylomicrons and Their Remnants in the Hypoalphalipoproteinemia and Mild Hypertriglyceridemia Syndrome, 1184
Lipoproteins and Their Genetic Variation in Subjects With and Without Angiographically Verified Coronary Artery Disease, 58

Apolipoprotein E polymorphism
Lipoprotein Profile of a Greenland Inuit Population: Influence of Anthropometric Variables, Apo E and A4 Polymorphism, and Lifestyle, 1371

Apolipoprotein(a) gene
Apo(a) Isoforms Predict Risk for Coronary Heart Disease: A Study in Six Populations, 1214

Apolipoprotein(a) isoforms
Apolipoprotein(a) Alleles Determine Lipoprotein(a) Particle Density and Concentration in Plasma, 302
Significant Association Between Low-Molecular-Weight Apolipoprotein(a) Isoforms and Intermittent Claudication, 895

Apolipoproteins
A Case–Control Study of Lipoprotein Particles in Two Populations at Contrasting Risk for Coronary Heart Disease: The ECTIM Study, 701
Atherogenesis in Diabetes, 647
Docosahexaenoic and Eicosapentaenoic Acids in Plasma Phospholipids Are Divergently Associated With High Density Lipoprotein in Humans, 675
LDL Particle Size Distribution: Results From the Framingham Offspring Study, 1410
Low Density Lipoprotein Particle Size and Coronary Artery Disease, 187
Relation Between Insulinemia, Body Mass Index, and Lipoprotein Composition in Healthy, Nondiabetic Men and Women, 393

Arterial injury
Time Course and Cellular Characteristics of the Iliac Artery Response to Acute Balloon Injury: An Angiographic, Morphometric, and Immunocytochemical Analysis in the Cholesterol-Fed New Zealand White Rabbit, 1267

Arterial lipid biosynthesis
Evidence for an Altered Lipid Metabolic State in Circulating Blood Monocytes Under Conditions of Hyperlipemia in Swine and Its Implications in Arterial Lipid Metabolism, 155

Arterial mass transport
Effect of Endothelial Integrity, Transmural Pressure, and Time on the Intimal–Medial Uptake of Serum ^{125}I-Albumin and ^{125}I-LDL in an In Vitro Porcine Arterial Organ-Support System, 1313

Arterial metabolism
Effect of Various Blood-Derived and Semisynthetic Nutrient Media on In Vitro Uptake of ^{125}I-Albumin Across the Intact Porcine Aortic Endothelial Surface in an Organ-Support System, 357

Arterial temporal uptake
Effect of Endothelial Integrity, Transmural Pressure, and Time on the Intimal–Medial Uptake of Serum ^{125}I-Albumin and ^{125}I-LDL in an In Vitro Porcine Arterial Organ-Support System, 1313

Arterial thrombosis
Antithrombotic Effect of a Monoclonal Antibody Against Tissue Factor in a Rabbit Model of Platelet-Mediated Arterial Thrombosis, 948
Antithrombotic Efficacy of Low-Molecular-Weight Heparin in Deep Arterial Injury, 250

Arterial thrombosis model
Comparative Copper Coil–Induced Thrombogenicity of the Internal Mammary, Left Anterior Descending Coronary, and Popliteal Arteries in Dogs, 639

Arterial wall
Accelerated Cholesterol Accumulation in Homologous Arterial Transplants in Cholesterol-Fed Rabbits: A Surgical Model to Study Transplantation Atherosclerosis, 771

Arterial wall metabolism
Accumulation of ^{125}I-Tyramine Cellobiose–Labeled Low Density Lipoprotein Is Greater in the Atherosclerosis-Susceptible Region of White Carneau Pigeon Aorta and Further Enhanced Once Atherosclerotic Lesions Develop, 446

Arteriosclerosis
Chronic Rejection of Rat Aortic Allografts: III. Synthesis of Major Eicosanoids by Vascular Wall Components and Effect of Inhibition of the Thromboxane Cascade, 1380
Induction of Arteriosclerosis in Normocholesterolemic Rabbits by Immunization With Heat Shock Protein 65, 789
Inhibition of Cyclic AMP– and Cyclic GMP–Mediated Dilations in Isolated Arteries by Oxidized Low Density Lipoproteins, 180
Ontogenetic Regulation of Apolipoprotein B mRNA Editing During Human and Rat Development In Vivo, 468
Polarized Binding of Lipoprotein Lipase to Endothelial Cells: Implications for Its Physiological Actions, 1437
The Origin of the Council on Arteriosclerosis, 543
Time Course of ^{125}I-Labeled LDL Accumulation in the Healing, Balloon-Deendothelialized Rabbit Aorta, 1088

Arteriovenous fistula
Difference in Dilatation Between Endothelium-Preserved and -Desquamated Segments in the Flow-Loaded Rat Common Carotid Artery, 519

Artery
Demonstration of a Keratan Sulfate–Containing Proteoglycan in Atherosclerotic Aorta, 83

Aspirin
Acute In Vitro Effects of Ethanol on Responses of Platelets From Cholesterol-Fed and Watanabe Heritable Hyperlipidemic Rabbits, 437
Modulation of Fibrinolytic Response to Venous Occlusion in Humans by a Combination of Low-Dose Aspirin and n-3 Polyunsaturated Fatty Acids, 1191

Atherogenesis
Effect of Arterial Proteoglycans and Glycosaminoglycans on Low Density Lipoprotein Oxidation and Its Uptake by Human Macrophages and Arterial Smooth Muscle Cells, 569
Oxidation of Low Density Lipoprotein Enhances Its Potential to Increase Intracellular Free Calcium Concentration in Vascular Smooth Muscle Cells, 231

Atherogenesis mechanisms
Accumulation of ^{125}I-Tyramine Cellobiose–Labeled Low Density Lipoprotein Is Greater in the Atherosclerosis-Susceptible Region of White Carneau Pigeon Aorta and Further Enhanced Once Atherosclerotic Lesions Develop, 446

Atherogenic diet
The Role of Cholesteryl Ester Transfer Protein in Primate Apolipoprotein A-I Metabolism: Insights From Studies With Transgenic Mice, 736

Atheroma
β-VLDL–Induced Cholesterol Ester Deposition in Macrophages May Be Regulated by Neutral Cholesterol Esterase Activity, 1139

Atherosclerosis
β-VLDL–Induced Cholesterol Ester Deposition in Macrophages May Be Regulated by Neutral Cholesterol Esterase Activity, 1139
Accelerated Cholesterol Accumulation in Homologous Arterial Transplants in Cholesterol-Fed Rabbits: A Surgical Model to Study Transplantation Atherosclerosis, 771
Accumulation of ^{125}I-Tyramine Cellobiose–Labeled Low Density Lipoprotein Is Greater in the Atherosclerosis-Susceptible Region of White Carneau Pigeon Aorta and Further Enhanced Once Atherosclerotic Lesions Develop, 446
Aortic Permeability to LDL as a Predictor of Aortic Cholesterol Accumulation in Cholesterol-Fed Rabbits, 1402
Apo B Insertion/Deletion Polymorphisms Are Associated With Atherosclerosis in Young Black but Not Young White Males, 1023
Arterial Wall Thickness in Familial Hypercholesterolemia: Ultrasound Measurement of Intima–Media Thickness in the Common Carotid Artery, 70
Atherogenesis in Diabetes, 647
Autoradiographic Analysis of the Distribution of ^{125}I–Tyramine-Cellobiose-LDL in Atherosclerotic Lesions of the WHHL Rabbit, 985
Blood Velocity Profiles in the Origin of the Canine Renal Artery and Their Relevance in the Localization and Development of Atherosclerosis, 626
Characterization of Deletions in the LDL Receptor Gene in Patients With Familial Hypercholesterolemia in the United Kingdom, 762
Cholesterol Efflux Is Defective in Macrophages From Atherosclerosis-Susceptible White Carneau Pigeons Relative to Resistant Show Racer Pigeons, 1291
Collagens in Human AtherosclerosisImmunohistochemical Analysis Using Collagen Type-Specific Antibodies, 494

Comparative Copper Coil–Induced Thrombogenicity of the Internal Mammary, Left Anterior Descending Coronary, and Popliteal Arteries in Dogs, 639
Comparison of Computer- and Human-Derived Coronary Angiographic End-Point Measures for Controlled Therapy Trials, 348
Demonstration of a Keratan Sulfate–Containing Proteoglycan in Atherosclerotic Aorta, 83
Effect of Atherosclerosis on Responses of the Perfused Rabbit Carotid Artery to Human Platelets, 1206
Effect of Endothelial Integrity, Transmural Pressure, and Time on the Intimal–Medial Uptake of Serum ^{125}I-Albumin and ^{125}I-LDL in an In Vitro Porcine Arterial Organ-Support System, 1313
Etoposide Treatment Suppresses Atherosclerotic Plaque Development in Cholesterol-Fed Rabbits, 1363
Evidence for an Altered Lipid Metabolic State in Circulating Blood Monocytes Under Conditions of Hyperlipemia in Swine and Its Implications in Arterial Lipid Metabolism, 155
Fibrates Influence the Expression of Genes Involved in Lipoprotein Metabolism in a Tissue-Selective Manner in the Rat, 286
Frontiers in Cardiovascular Science: Quantitative Measurements of Atherosclerotic Manifestations in Humans, 114
Glutathione-Related Enzyme Activities and Lipoperoxide Levels in Human Internal Mammary Artery and Ascending Aorta: Relations With Serum Lipids, 92
Hepatic ACAT Activity in African Green Monkeys Is Highly Correlated to Plasma LDL Cholesteryl Ester Enrichment and Coronary Artery Atherosclerosis, 1274
High Density Lipoprotein Deficiency Syndrome in Chickens Is Not Associated With an Increased Susceptibility to Atherosclerosis, 601
Impaired Vasodilatory Response to Atrial Natriuretic Peptide During Atherosclerosis Progression, 99
Induction of Arteriosclerosis in Normocholesterolemic Rabbits by Immunization With Heat Shock Protein 65, 789
Induction of T-Cell Activation by Oxidized Low Density Lipoprotein, 461
Influx In Vivo of Low Density, Intermediate Density, and Very Low Density Lipoproteins Into Aortic Intimas of Genetically Hyperlipidemic Rabbits: Roles of Plasma Concentration, Extent of Aortic Lesion, and Lipoprotein Particle Size as Determinants, 6
Long-term Nicotine Exposure Increases Aortic Endothelial Cell Death and Enhances Transendothelial Macromolecular Transport in Rats, 1305
Mast Cell–Mediated Inhibition of Reverse Cholesterol Transport, 1329
Monoclonal Antibodies Against LDL Further Enhance Macrophage Uptake of LDL Aggregates, 1258
Native and Oxidized LDL Enhances Production of PDGF AA and the Surface Expression of PDGF Receptors in Cultured Human Smooth Muscle Cells, 1099
Noninvasive Quantification of Atherosclerotic Lesions: Reproducibility of Ultrasonographic Measurement of Arterial Wall Thickness and Plaque Size, 261
Oxidatively Modified HDLs Are Potent Inhibitors of Cholesterol Biosynthesis in Human Skin Fibroblasts, 929
Oxidized Low Density Lipoproteins Stimulate Phosphoinositide Turnover in Cultured Vascular Smooth Muscle Cells, 278
Quantification of Atherosclerotic Plaque Composition in Cholesterol-Fed Rabbits With 50-MHz Acoustic Microscopy, 1227
Redirected Targeting of LDL to Human Monocyte Fcγ Receptors With Bispecific Antibodies, 1131
Regional Differences in Arterial Low Density Lipoprotein Metabolism in Surgically Postmenopausal Cynomolgus Monkeys: Effects of Estrogen and Progesterone Replacement Therapy, 717
Regulation of the Urokinase-Type Plasminogen Activator Receptor on Vascular Smooth Muscle Cells Is Under the Control of Thrombin and Other Mitogens, 1161
Relation Between 25-Hydroxyvitamin D_3, Apolipoprotein A-I, and High Density Lipoprotein Cholesterol, 671
Scavenger Receptor–Independent Stimulation of Cholesterol Esterification in Macrophages by Low Density Lipoprotein Extracted From Human Aortic Intima, 608
Superoxide-Dependent Stimulation of Leukocyte Adhesion by Oxidatively Modified LDL In Vivo, 824
T Lymphocytes in Human Atherosclerotic Plaques Are Memory Cells Expressing CD45RO and the Integrin VLA-1, 206
The PLAT Study: Hemostatic Function in Relation to Atherothrombotic Ischemic Events in Vascular Disease Patients: Principal Results, 1063
Time Course and Cellular Characteristics of the Iliac Artery Response to Acute Balloon Injury: An Angiographic, Morphometric, and Immunocytochemical Analysis in the Cholesterol-Fed New Zealand White Rabbit, 1267

Atherosclerosis progression
Frontiers in Cardiovascular Science: Quantitative Measurements of Atherosclerotic Manifestations in Humans, 114

Atherosclerosis regression
Endocytosis of Oxidized LDL and Reversibility of Migration Inhibition in Macrophage-Derived Foam Cells In Vitro: A Mechanism for Atherosclerosis Regression? 936

Atherosclerosis susceptibility
Accumulation of ^{125}I-Tyramine Cellobiose–Labeled Low Density Lipoprotein Is Greater in the Atherosclerosis-Susceptible Region of White Carneau Pigeon Aorta and Further Enhanced Once Atherosclerotic Lesions Develop, 446

Atherosclerotic plaque
Serum Lp(a) as a Discriminant Marker of Early Atherosclerotic Plaque at Three Extracoronary Sites in Hypercholesterolemic Men, 1346

Atrial natriuretic peptide
Impaired Vasodilatory Response to Atrial Natriuretic Peptide During Atherosclerosis Progression, 99

Autocrine growth factors
Mitogenic Activity of Interferon Gamma on Growth-Arrested Human Vascular Smooth Muscle Cells, 1393

Autoimmunity
Induction of Arteriosclerosis in Normocholesterolemic Rabbits by Immunization With Heat Shock Protein 65, 789

Autoradiography
Autoradiographic Analysis of the Distribution of ^{125}I–Tyramine-Cellobiose-LDL in Atherosclerotic Lesions of the WHHL Rabbit, 985

B

B-mode ultrasonography
Serum Lp(a) as a Discriminant Marker of Early Atherosclerotic Plaque at Three Extracoronary Sites in Hypercholesterolemic Men, 1346

B-mode ultrasound
Arterial Wall Thickness in Familial Hypercholesterolemia: Ultrasound Measurement of Intima–Media Thickness in the Common Carotid Artery, 70

Baboons
A DNA Polymorphism for LCAT Is Associated With Altered LCAT Activity and High Density Lipoprotein Size Distributions in Baboons, 682

Balloon catheter
Pituitary Factors in Blood Plasma Are Necessary for Smooth Muscle Cell Proliferation in Response to Injury In Vivo, 1488

Balloon-deendothelialized rabbit aorta
Time Course of ^{125}I-Labeled LDL Accumulation in the Healing, Balloon-Deendothelialized Rabbit Aorta, 1088

Binding sites
LDL Binding Sites on Platelets Differ From the "Classical" Receptor of Nucleated Cells, 1353

Biomaterials
Delivery of Passivating Proteins to Sutures During Passage Through the Vessel Wall Reduces Subsequent Platelet Deposition by Blocking Fibrinogen Adsorption, 727
Biomechanics
Prediction of Mechanical Properties of Human Atherosclerotic Tissue by High-Frequency Intravascular Ultrasound Imaging: An In Vitro Study, 1
Bispecific antibodies
Redirected Targeting of LDL to Human Monocyte Fcγ Receptors With Bispecific Antibodies, 1131
Blood coagulation
Structure of the Murine Tissue Factor GeneChromosome Location and Conservation of Regulatory Elements in the Promoter, 474
Blood flow
Difference in Dilatation Between Endothelium-Preserved and -Desquamated Segments in the Flow-Loaded Rat Common Carotid Artery, 519
Blood pressure
Effect of Endothelial Integrity, Transmural Pressure, and Time on the Intimal–Medial Uptake of Serum ^{125}I-Albumin and ^{125}I-LDL in an In Vitro Porcine Arterial Organ-Support System, 1313
Blood velocity profile
Blood Velocity Profiles in the Origin of the Canine Renal Artery and Their Relevance in the Localization and Development of Atherosclerosis, 626
Body-fat distribution
Upper-Body Fat Distribution: A Hyperinsulinemia-Independent Predictor of Coronary Heart Disease Mortality: The Paris Prospective Study, 1387
Body fatness
Does Body Fatness Modify the Association Between Dietary Cholesterol and Risk of Coronary Death? Results From The Chicago Western Electric Study, 755
Body mass index
Determinants of Plasma Fibrinogen: Relation to Body Weight, Waist-to-Hip Ratio, Smoking, Alcohol, Age, and Sex: Results From the Second MONICA Augsburg Survey, 1989–1990, 780
Influence of Gender, Body Mass Index, and Age on Response of Plasma Lipids to Dietary Fat Plus Cholesterol, 955
5-Bromo-2′-deoxyuridine incorporation
Contribution of the Endothelium to Intimal Thickening in Normocholesterolemic and Hypercholesterolemic Rabbits, 1198

C

CaCo-2 cells
Apolipoprotein B mRNA Abundance Is Decreased by Eicosapentaenoic Acid in CaCo-2 Cells: Effect on the Synthesis and Secretion of Apolipoprotein B, 691
Calcium
Functional Implications of cAMP and Ca^{2+} on Prostaglandin I_2 and Thromboxane A_2 Synthesis by Human Endothelial Cells, 512
Cardiovascular disease risk factors
Determinants of Plasma Fibrinogen: Relation to Body Weight, Waist-to-Hip Ratio, Smoking, Alcohol, Age, and Sex: Results From the Second MONICA Augsburg Survey, 1989–1990, 780
Lipoprotein Profile of a Greenland Inuit Population: Influence of Anthropometric Variables, Apo E and A4 Polymorphism, and Lifestyle, 1371
Serum Lp(a) as a Discriminant Marker of Early Atherosclerotic Plaque at Three Extracoronary Sites in Hypercholesterolemic Men, 1346
Cardiovascular risk
Plasma Lipids and Lipoproteins and the Incidence of Cardiovascular Disease in the Very Elderly: The Bronx Aging Study, 416
Cardiovascular risk factors
Early Abnormalities in Coronary Heart Disease Risk Factors in Relatives of Subjects With Non–Insulin-Dependent Diabetes, 657
β-Carotene
Supplementation With Vitamin E but Not β-Carotene In Vivo Protects Low Density Lipoprotein From Lipid Peroxidation In Vitro: Effect of Cigarette Smoking, 554
Carotid artery
Effect of Atherosclerosis on Responses of the Perfused Rabbit Carotid Artery to Human Platelets, 1206
Flow Affects Development of Intimal Hyperplasia After Arterial Injury in Rats, 963
Pituitary Factors in Blood Plasma Are Necessary for Smooth Muscle Cell Proliferation in Response to Injury In Vivo, 1488
Carotid bifurcation
Experimental Atherosclerosis at the Carotid Bifurcation of the Cynomolgus Monkey: Localization, Compensatory Enlargement, and the Sparing Effect of Lowered Heart Rate, 1245
Case–control studies
A Case–Control Study of Lipoprotein Particles in Two Populations at Contrasting Risk for Coronary Heart Disease: The ECTIM Study, 701
Catalase
Immunolocalization of Native Antioxidant Scavenger Enzymes in Early Hypertensive and Atherosclerotic Arteries: Role of Oxygen Free Radicals, 403
CD18 complex
Inhibition of Leukocyte Extravasation With a Monoclonal Antibody to CD18 During Formation of Experimental Intimal Thickening in Rabbit Carotid Arteries, 997
Cell activation
Thrombogenicity and Procoagulant Activity of Human Mesothelial Cells, 1428
Cell death
Long-term Nicotine Exposure Increases Aortic Endothelial Cell Death and Enhances Transendothelial Macromolecular Transport in Rats, 1305
Cell mitosis
Long-term Nicotine Exposure Increases Aortic Endothelial Cell Death and Enhances Transendothelial Macromolecular Transport in Rats, 1305
Chemotaxis
Monocytes May Amplify Their Recruitment Into Inflammatory Lesions by Inducing Monocyte Chemotactic Protein, 78
Probucol Pretreatment Enhances the Chemotaxis of Mouse Peritoneal Macrophages, 593
Chickens
High Density Lipoprotein Deficiency Syndrome in Chickens Is Not Associated With an Increased Susceptibility to Atherosclerosis, 601
Chlamydia pneumoniae
Smoking Is a Potential Confounder of the *Chlamydia pneumoniae*–Coronary Artery Disease Association, 945
Cholesterol
A DNA Polymorphism for LCAT Is Associated With Altered LCAT Activity and High Density Lipoprotein Size Distributions in Baboons, 682
Abnormalities of VLDL, IDL, and LDL Characterize Insulin-Dependent Diabetes Mellitus, 920
Accelerated Cholesterol Accumulation in Homologous Arterial Transplants in Cholesterol-Fed Rabbits: A Surgical Model to Study Transplantation Atherosclerosis, 771
Cholesterol and Triglyceride Fatty Acid Synthesis in Apolipoprotein E2–Associated Hyperlipidemia, 106
Continuous Infusion of Interleukin-1β in Rats Induces a Profound Fall in Plasma Levels of Cholesterol and Triglycerides, 1036
Correlation of Factor VII Activity and Antigen With Cholesterol and Triglycerides in Healthy Young Adults, 267
Effect of Dietary Fatty Acids on Serum Lipids and Lipoproteins: A Meta-analysis of 27 Trials, 911

Quantification of Atherosclerotic Plaque Composition in Cholesterol-Fed Rabbits With 50-MHz Acoustic Microscopy, 1227
Relation Between 25-Hydroxyvitamin D_3, Apolipoprotein A-I, and High Density Lipoprotein Cholesterol, 671
The Role of Cholesteryl Ester Transfer Protein in Primate Apolipoprotein A-I Metabolism: Insights From Studies With Transgenic Mice, 736

Cholesterol absorption
Cholesterol Absorption, Elimination, and Synthesis Related to LDL Kinetics During Varying Fat Intake in Men With Different Apoprotein E Phenotypes, 1044

Cholesterol biosynthesis
Oxidatively Modified HDLs Are Potent Inhibitors of Cholesterol Biosynthesis in Human Skin Fibroblasts, 929

Cholesterol efflux
Cholesterol Efflux Is Defective in Macrophages From Atherosclerosis-Susceptible White Carneau Pigeons Relative to Resistant Show Racer Pigeons, 1291

Cholesterol ester accumulation
β-VLDL–Induced Cholesterol Ester Deposition in Macrophages May Be Regulated by Neutral Cholesterol Esterase Activity, 1139

Cholesterol ester transport
Probucol Increases the Selective Uptake of HDL Cholesterol Esters by Hep G2 Human Hepatoma Cells, 870

Cholesterol esterification
Lipoprotein–Proteoglycan Complexes From Atherosclerotic Lesions Promote Cholesteryl Ester Accumulation in Human Monocytes/Macrophages, 237

Cholesterol-fed monkeys
Role of Apolipoprotein E on Cholesteryl Ester–Enriched Low Density Lipoprotein Particles in Coronary Artery Atherosclerosis of Hypercholesterolemic Nonhuman Primates, 28

Cholesterol-fed rabbits
Aortic Permeability to LDL as a Predictor of Aortic Cholesterol Accumulation in Cholesterol-Fed Rabbits, 1402
Quantification of Atherosclerotic Plaque Composition in Cholesterol-Fed Rabbits With 50-MHz Acoustic Microscopy, 1227

Cholesterol feeding
Accumulation of ^{125}I-Tyramine Cellobiose–Labeled Low Density Lipoprotein Is Greater in the Atherosclerosis-Susceptible Region of White Carneau Pigeon Aorta and Further Enhanced Once Atherosclerotic Lesions Develop, 446

Cholesterol oxides
Immunolocalization of Native Antioxidant Scavenger Enzymes in Early Hypertensive and Atherosclerotic Arteries: Role of Oxygen Free Radicals, 403

Cholesterol synthesis
Cholesterol Absorption, Elimination, and Synthesis Related to LDL Kinetics During Varying Fat Intake in Men With Different Apoprotein E Phenotypes, 1044
Cholesterol and Triglyceride Fatty Acid Synthesis in Apolipoprotein E2–Associated Hyperlipidemia, 106
Siblings With Normal LDL Receptor Activity and Severe Hypercholesterolemia, 1071

Cholesterol synthesis inhibition
Dietary Fish Oil Plus Lovastatin Decreases Both VLDL and LDL Apo B Production in Miniature Pigs, 902

Cholesteryl ester
Hepatic ACAT Activity in African Green Monkeys Is Highly Correlated to Plasma LDL Cholesteryl Ester Enrichment and Coronary Artery Atherosclerosis, 1274

Cholesteryl ester hydrolase
Tissue and Species Differences in Bile Salt–Dependent Neutral Cholesteryl Ester Hydrolase Activity and Gene Expression, 295

Cholesteryl ester transfer protein
Effect of Marine Lipids on Cholesteryl Ester Transfer and Lipoprotein Composition in Patients With Hypercholesterolemia, 1146
The Role of Cholesteryl Ester Transfer Protein in Primate Apolipoprotein A-I Metabolism: Insights From Studies With Transgenic Mice, 736

Cholestyramine
Lathosterol and Other Noncholesterol Sterols During Treatment of Hypercholesterolemia With Lovastatin Alone and With Cholestyramine or Guar Gum, 807

Chondroitin 6-sulfate
Effect of Arterial Proteoglycans and Glycosaminoglycans on Low Density Lipoprotein Oxidation and Its Uptake by Human Macrophages and Arterial Smooth Muscle Cells, 569

Chromosomal localization
Structure of the Murine Tissue Factor GeneChromosome Location and Conservation of Regulatory Elements in the Promoter, 474

Chronic rejection
Chronic Rejection of Rat Aortic Allografts: III. Synthesis of Major Eicosanoids by Vascular Wall Components and Effect of Inhibition of the Thromboxane Cascade, 1380

Chylomicrons
Regulation of Lipoprotein Lipase Secretion in Murine Macrophages During Foam Cell Formation In Vitro: Effect of Triglyceride-Rich Lipoproteins, 1458
Relation of Triglyceride Metabolism and Coronary Artery Disease: Studies in the Postprandial State, 1336

Chymase
Mast Cell–Mediated Inhibition of Reverse Cholesterol Transport, 1329

Cigarette smoking
Determinants of Plasma Fibrinogen: Relation to Body Weight, Waist-to-Hip Ratio, Smoking, Alcohol, Age, and Sex: Results From the Second MONICA Augsburg Survey, 1989–1990, 780
Supplementation With Vitamin E but Not β-Carotene In Vivo Protects Low Density Lipoprotein From Lipid Peroxidation In Vitro: Effect of Cigarette Smoking, 554
Upper-Body Fat Distribution: A Hyperinsulinemia-Independent Predictor of Coronary Heart Disease Mortality: The Paris Prospective Study, 1387

Clearance
Turnover of Synthetic Class A Amphipathic Peptide Analogues of Exchangeable Apolipoproteins in Rats: Correlation With Physical Properties, 886

Clinical trials
Comparison of Computer- and Human-Derived Coronary Angiographic End-Point Measures for Controlled Therapy Trials, 348
Frontiers in Cardiovascular Science: Quantitative Measurements of Atherosclerotic Manifestations in Humans, 114

Clopidogrel
Clopidogrel Inhibits the Binding of ADP Analogues to the Receptor Mediating Inhibition of Platelet Adenylate Cyclase, 430

Coagulation
Increased Lipid Binding to Thrombi in Coronary Artery Disease: Findings in Patients Without Premedication in Native (Not Anticoagulated) Test Systems, 1516

Collagen
Collagens in Human AtherosclerosisImmunohistochemical Analysis Using Collagen Type-Specific Antibodies, 494
Role of the Extracellular Matrix in Age-Related Modifications of the Rat Aorta: Ultrastructural, Morphometric, and Enzymatic Evaluations, 1008

Common carotid artery
Difference in Dilatation Between Endothelium-Preserved and -Desquamated Segments in the Flow-Loaded Rat Common Carotid Artery, 519

Compensatory enlargement
Experimental Atherosclerosis at the Carotid Bifurcation of the Cynomolgus Monkey: Localization, Compensatory Enlargement, and the Sparing Effect of Lowered Heart Rate, 1245

Competence genes
Mechanisms Controlling Competence Gene Expression in Murine Fibroblasts Stimulated With Minimally Modified LDL, 800

Controlled trials
Effect of Dietary Fatty Acids on Serum Lipids and Lipoproteins: A Meta-analysis of 27 Trials, 911

Coronary arteries
Effect of Induced Hypercholesterolemia in Rabbits on Functional Responses of Isolated Large Proximal and Small Distal Coronary Arteries, 380

Coronary artery disease
Familial Combined Hyperlipidemia and Abnormal Lipoprotein Lipase, 1176
Increased Lipid Binding to Thrombi in Coronary Artery Disease: Findings in Patients Without Premedication in Native (Not Anticoagulated) Test Systems, 1516
Lipoproteins and Their Genetic Variation in Subjects With and Without Angiographically Verified Coronary Artery Disease, 58
Low Density Lipoprotein Particle Size and Coronary Artery Disease, 187
Platelet Function and Composition in Heart Transplant Recipients Compared With Nontransplanted Coronary Patients, 222
Smoking Is a Potential Confounder of the *Chlamydia pneumoniae*–Coronary Artery Disease Association, 945

Coronary heart disease

Mast Cell–Mediated Inhibition of Reverse Cholesterol Transport, 1329
Normal Postprandial Lipemia in Men With Low Plasma HDL Concentrations, 972
Oxidatively Modified HDLs Are Potent Inhibitors of Cholesterol Biosynthesis in Human Skin Fibroblasts, 929
Reduced HDL_2 Cholesterol Subspecies and Elevated Postheparin Hepatic Lipase Activity in Older Men With Abdominal Obesity and Asymptomatic Myocardial Ischemia, 814
Relation Between Insulinemia, Body Mass Index, and Lipoprotein Composition in Healthy, Nondiabetic Men and Women, 393
Relation of Triglyceride Metabolism and Coronary Artery Disease: Studies in the Postprandial State, 1336
The Role of Cholesteryl Ester Transfer Protein in Primate Apolipoprotein A-I Metabolism: Insights From Studies With Transgenic Mice, 736
Transport of HDL Cholesterol Esters to the Liver Is Not Diminished by Probucol Treatment in Rats, 862

History
The Origin of the Council on Arteriosclerosis, 543

Homocysteine
Attenuation of Immunologic Reactivity of Lipoprotein(a) by Thiols and Cysteine-Containing Compounds: Structural Implications, 424

Homozygotes
Increased Sitosterol Absorption Is Offset by Rapid Elimination to Prevent Accumulation in Heterozygotes With Sitosterolemia, 563

Human arteries
Inhibition of Cyclic AMP– and Cyclic GMP–Mediated Dilations in Isolated Arteries by Oxidized Low Density Lipoproteins, 180

Human development
Ontogenetic Regulation of Apolipoprotein B mRNA Editing During Human and Rat Development In Vivo, 468

Human Kupffer cells
Characterization of the Interaction of Acetylated LDL and Oxidatively Modified LDL With Human Liver Parenchymal and Kupffer Cells in Culture, 1079

Human liver parenchymal cells
Characterization of the Interaction of Acetylated LDL and Oxidatively Modified LDL With Human Liver Parenchymal and Kupffer Cells in Culture, 1079

Human macrophages
Effect of Arterial Proteoglycans and Glycosaminoglycans on Low Density Lipoprotein Oxidation and Its Uptake by Human Macrophages and Arterial Smooth Muscle Cells, 569

Human skin fibroblasts
Effect of Dietary Supplementation With n-3 Polyunsaturated Fatty Acids on Physical Properties and Metabolism of Low Density Lipoprotein in Humans, 369
Oxidatively Modified HDLs Are Potent Inhibitors of Cholesterol Biosynthesis in Human Skin Fibroblasts, 929

Humans
Effect of Dietary Fatty Acids on Serum Lipids and Lipoproteins: A Meta-analysis of 27 Trials, 911
Effects of a Monounsaturated Rapeseed Oil and a Polyunsaturated Sunflower Oil Diet on Lipoprotein Levels in Humans, 50

Hydraulic conductance
Effect of Pressure on Aortic Hydraulic Conductance, 163

5-Hydroxytryptamine
Effect of Induced Hypercholesterolemia in Rabbits on Functional Responses of Isolated Large Proximal and Small Distal Coronary Arteries, 380

25-Hydroxyvitamin D_3
Relation Between 25-Hydroxyvitamin D_3, Apolipoprotein A-I, and High Density Lipoprotein Cholesterol, 671

Hypercholesterolemia
A Monogalactosylated Cholesterol Derivative That Specifically Induces Uptake of LDL by the Liver, 1153
Acute In Vitro Effects of Ethanol on Responses of Platelets From Cholesterol-Fed and Watanabe Heritable Hyperlipidemic Rabbits, 437
Contribution of the Endothelium to Intimal Thickening in Normocholesterolemic and Hypercholesterolemic Rabbits, 1198
Effect of Induced Hypercholesterolemia in Rabbits on Functional Responses of Isolated Large Proximal and Small Distal Coronary Arteries, 380
Etoposide Treatment Suppresses Atherosclerotic Plaque Development in Cholesterol-Fed Rabbits, 1363
Immunolocalization of Native Antioxidant Scavenger Enzymes in Early Hypertensive and Atherosclerotic Arteries: Role of Oxygen Free Radicals, 403

Increased Susceptibility to Activation and Increased Uptake of Low Density Lipoprotein by Cholesterol-Loaded Macrophages, 745
Induction of T-Cell Activation by Oxidized Low Density Lipoprotein, 461
Lathosterol and Other Noncholesterol Sterols During Treatment of Hypercholesterolemia With Lovastatin Alone and With Cholestyramine or Guar Gum, 807
Serum Lp(a) as a Discriminant Marker of Early Atherosclerotic Plaque at Three Extracoronary Sites in Hypercholesterolemic Men, 1346

Hypercholesterolemic swine
Evidence for an Altered Lipid Metabolic State in Circulating Blood Monocytes Under Conditions of Hyperlipemia in Swine and Its Implications in Arterial Lipid Metabolism, 155

Hyperglycemia
In Vivo Effect of Insulin on the Acute Proliferative Response of the Rat Aorta to Injury, 633

Hyperinsulinemia
In Vivo Effect of Insulin on the Acute Proliferative Response of the Rat Aorta to Injury, 633
Relation Between Insulinemia, Body Mass Index, and Lipoprotein Composition in Healthy, Nondiabetic Men and Women, 393

Hyperlipidemia
Atherogenesis in Diabetes, 647
Characterization of Deletions in the LDL Receptor Gene in Patients With Familial Hypercholesterolemia in the United Kingdom, 762
Cholesterol and Triglyceride Fatty Acid Synthesis in Apolipoprotein E2–Associated Hyperlipidemia, 106
Fibrates Influence the Expression of Genes Involved in Lipoprotein Metabolism in a Tissue-Selective Manner in the Rat, 286

Hypertension
Effect of Endothelial Integrity, Transmural Pressure, and Time on the Intimal–Medial Uptake of Serum ^{125}I-Albumin and ^{125}I-LDL in an In Vitro Porcine Arterial Organ-Support System, 1313
Immunolocalization of Native Antioxidant Scavenger Enzymes in Early Hypertensive and Atherosclerotic Arteries: Role of Oxygen Free Radicals, 403

Hypertriglyceridemia
Delayed Clearance of Postprandial Chylomicrons and Their Remnants in the Hypoalphalipoproteinemia and Mild Hypertriglyceridemia Syndrome, 1184
Hypertriglyceridemia and Regulation of Fibrinolytic Activity, 19
Pathogenesis of Carbohydrate-Induced Hypertriglyceridemia Using HepG2 Cells as a Model System, 271
Persistence of Abnormalities in Metabolism of Apolipoproteins B-100 and A-I After Weight Reduction in Patients With Primary Hypertriglyceridemia, 976

Hypoalphalipoproteinemia
Persistence of Abnormalities in Metabolism of Apolipoproteins B-100 and A-I After Weight Reduction in Patients With Primary Hypertriglyceridemia, 976

Hypoglycemia
In Vivo Effect of Insulin on the Acute Proliferative Response of the Rat Aorta to Injury, 633

Hypolipidemic drugs
Fibrates Influence the Expression of Genes Involved in Lipoprotein Metabolism in a Tissue-Selective Manner in the Rat, 286

I

Iloprost
Prostacyclin Analogues Inhibit Tissue Factor Expression in the Human Monocytic Cell Line THP-1 Via a Cyclic AMP–Dependent Mechanism, 664

Immune complexes
Monoclonal Antibodies Against LDL Further Enhance Macrophage Uptake of LDL Aggregates, 1258
Redirected Targeting of LDL to Human Monocyte Fcγ Receptors With Bispecific Antibodies, 1131

Immunization
Induction of Arteriosclerosis in Normocholesterolemic Rabbits by Immunization With Heat Shock Protein 65, 789

Immunohistochemical localization
High Density Lipoprotein–Binding Proteins in Porcine Liver: Isolation and Histological Localization, 325

Immunohistochemistry
Collagens in Human AtherosclerosisImmunohistochemical Analysis Using Collagen Type-Specific Antibodies, 494
Contribution of the Endothelium to Intimal Thickening in Normocholesterolemic and Hypercholesterolemic Rabbits, 1198

Immunoreactivity of lipoprotein(a)
Attenuation of Immunologic Reactivity of Lipoprotein(a) by Thiols and Cysteine-Containing Compounds: Structural Implications, 424

Impaired glucose tolerance
Early Abnormalities in Coronary Heart Disease Risk Factors in Relatives of Subjects With Non–Insulin-Dependent Diabetes, 657

In vitro
Effect of Induced Hypercholesterolemia in Rabbits on Functional Responses of Isolated Large Proximal and Small Distal Coronary Arteries, 380

In vivo simulation
Effect of Various Blood-Derived and Semisynthetic Nutrient Media on In Vitro Uptake of ^{125}I-Albumin Across the Intact Porcine Aortic Endothelial Surface in an Organ-Support System, 357

Inflammation
Monocytes May Amplify Their Recruitment Into Inflammatory Lesions by Inducing Monocyte Chemotactic Protein, 78
The Protein C Anticoagulant Pathway, 135

Inhibitors
Oxidized Low Density Lipoproteins Stimulate Phosphoinositide Turnover in Cultured Vascular Smooth Muscle Cells, 278

Injury
Pituitary Factors in Blood Plasma Are Necessary for Smooth Muscle Cell Proliferation in Response to Injury In Vivo, 1488

Insulin
Atherogenesis in Diabetes, 647
Relation Between Insulinemia, Body Mass Index, and Lipoprotein Composition in Healthy, Nondiabetic Men and Women, 393

Insulin-dependent diabetes mellitus
Abnormalities of VLDL, IDL, and LDL Characterize Insulin-Dependent Diabetes Mellitus, 920

Insulin metabolism
Influence of Insulin Resistance, Secretion, and Clearance on Serum Cholesterol, Triglycerides, Lipoprotein Cholesterol, and Blood Pressure in Healthy Men, 1030

Insulin resistance
Influence of Insulin Resistance, Secretion, and Clearance on Serum Cholesterol, Triglycerides, Lipoprotein Cholesterol, and Blood Pressure in Healthy Men, 1030

Integrated backscatter
Quantification of Atherosclerotic Plaque Composition in Cholesterol-Fed Rabbits With 50-MHz Acoustic Microscopy, 1227

Interaction
Binding of ^{111}In-Labeled HDL to Platelets From Normolipemic Volunteers and Patients With Heterozygous Familial Hypercholesterolemia, 849

Interferon
The Effect of Interferon on the Metabolism of LDLs, 1053

Interferon beta$_{serine}$
The Effect of Interferon on the Metabolism of LDLs, 1053

Interferon gamma
Mitogenic Activity of Interferon Gamma on Growth-Arrested Human Vascular Smooth Muscle Cells, 1393

Interleukin-1
Continuous Infusion of Interleukin-1β in Rats Induces a Profound Fall in Plasma Levels of Cholesterol and Triglycerides, 1036
Low Density Lipoproteins Inhibit Endotoxin Activation of Monocytes, 341
Prostacyclin Analogues Inhibit Tissue Factor Expression in the Human Monocytic Cell Line THP-1 Via a Cyclic AMP–Dependent Mechanism, 664

Interleukins
Induction of T-Cell Activation by Oxidized Low Density Lipoprotein, 461

Intermediate density lipoproteins
Abnormalities of VLDL, IDL, and LDL Characterize Insulin-Dependent Diabetes Mellitus, 920
Influx In Vivo of Low Density, Intermediate Density, and Very Low Density Lipoproteins Into Aortic Intimas of Genetically Hyperlipidemic Rabbits: Roles of Plasma Concentration, Extent of Aortic Lesion, and Lipoprotein Particle Size as Determinants, 6

Intermittent claudication
Significant Association Between Low-Molecular-Weight Apolipoprotein(a) Isoforms and Intermittent Claudication, 895

Internal mammary artery
Comparative Copper Coil–Induced Thrombogenicity of the Internal Mammary, Left Anterior Descending Coronary, and Popliteal Arteries in Dogs, 639
Glutathione-Related Enzyme Activities and Lipoperoxide Levels in Human Internal Mammary Artery and Ascending Aorta: Relations With Serum Lipids, 92

Intima
Effect of Endothelial Integrity, Transmural Pressure, and Time on the Intimal–Medial Uptake of Serum ^{125}I-Albumin and ^{125}I-LDL in an In Vitro Porcine Arterial Organ-Support System, 1313
Triphasic Sequence of Neointimal Formation in the Cuffed Carotid Artery of the Rabbit, 1447

Intimal hyperplasia
Flow Affects Development of Intimal Hyperplasia After Arterial Injury in Rats, 963
Time Course and Cellular Characteristics of the Iliac Artery Response to Acute Balloon Injury: An Angiographic, Morphometric, and Immunocytochemical Analysis in the Cholesterol-Fed New Zealand White Rabbit, 1267

Intimal thickening
Contribution of the Endothelium to Intimal Thickening in Normocholesterolemic and Hypercholesterolemic Rabbits, 1198
Inhibition of Leukocyte Extravasation With a Monoclonal Antibody to CD18 During Formation of Experimental Intimal Thickening in Rabbit Carotid Arteries, 997

Intima–media thickness
Noninvasive Quantification of Atherosclerotic Lesions: Reproducibility of Ultrasonographic Measurement of Arterial Wall Thickness and Plaque Size, 261

Inuit
Lipoprotein Profile of a Greenland Inuit Population: Influence of Anthropometric Variables, Apo E and A4 Polymorphism, and Lifestyle, 1371

J

J774 macrophages
Effect of Dietary Supplementation With n-3 Polyunsaturated Fatty Acids on Physical Properties and Metabolism of Low Density Lipoprotein in Humans, 369

J774.1 cell line
Regulation of Lipoprotein Lipase Secretion in Murine Macrophages During Foam Cell Formation In Vitro: Effect of Triglyceride-Rich Lipoproteins, 1458

JE/MCP-1
Mechanisms Controlling Competence Gene Expression in Murine Fibroblasts Stimulated With Minimally Modified LDL, 800

K

KC/gro
Mechanisms Controlling Competence Gene Expression in Murine Fibroblasts Stimulated With Minimally Modified LDL, 800

Keratan sulfate
Demonstration of a Keratan Sulfate–Containing Proteoglycan in Atherosclerotic Aorta, 83

Kinetics
The Effect of Interferon on the Metabolism of LDLs, 1053

Kringle domains
Antifibrinolytic Activities of α-*N*-Acetyl-L-Lysine Methyl Ester, ε-Aminocaproic Acid, and Tranexamic Acid: Importance of Kringle Interactions and Active Site Inhibition, 708

Kringles of lipoprotein(a)
Attenuation of Immunologic Reactivity of Lipoprotein(a) by Thiols and Cysteine-Containing Compounds: Structural Implications, 424

Kupffer cells
A Monogalactosylated Cholesterol Derivative That Specifically Induces Uptake of LDL by the Liver, 1153
Recognition Sites on Rat Liver Cells for Oxidatively Modified β–Very Low Density Lipoproteins, 41

L

Latent lipoprotein defects
Persistence of Abnormalities in Metabolism of Apolipoproteins B-100 and A-I After Weight Reduction in Patients With Primary Hypertriglyceridemia, 976

Lathosterol
Lathosterol and Other Noncholesterol Sterols During Treatment of Hypercholesterolemia With Lovastatin Alone and With Cholestyramine or Guar Gum, 807

LDL particle size
LDL Particle Size Distribution: Results From the Framingham Offspring Study, 1410

Lecithin:cholesterol acyltransferase
A DNA Polymorphism for LCAT Is Associated With Altered LCAT Activity and High Density Lipoprotein Size Distributions in Baboons, 682

Lesion estimation
Comparison of Computer- and Human-Derived Coronary Angiographic End-Point Measures for Controlled Therapy Trials, 348

Lesion regression
Reevaluation of Regression of Coronary Arteriosclerotic Lesions in Repeat-Spawning Steelhead Trout, 1171

Leukocyte adhesion molecules
Inhibition of Leukocyte Extravasation With a Monoclonal Antibody to CD18 During Formation of Experimental Intimal Thickening in Rabbit Carotid Arteries, 997

Leukocyte–endothelium interaction
Superoxide-Dependent Stimulation of Leukocyte Adhesion by Oxidatively Modified LDL In Vivo, 824

Leukocyte extravasation
Inhibition of Leukocyte Extravasation With a Monoclonal Antibody to CD18 During Formation of Experimental Intimal Thickening in Rabbit Carotid Arteries, 997

Linoleic acid
Effect of Dietary Monounsaturated and Polyunsaturated Fatty Acids on the Susceptibility of Plasma Low Density Lipoproteins to Oxidative Modification, 529

Lipid metabolism
Ontogenetic Regulation of Apolipoprotein B mRNA Editing During Human and Rat Development In Vivo, 468

Lipid peroxidation
Effect of Probucol Dosage on Plasma Lipid and Lipoprotein Levels and on Protection of Low Density Lipoprotein Against In Vitro Oxidation in Humans, 318
Glutathione-Related Enzyme Activities and Lipoperoxide Levels in Human Internal Mammary Artery and Ascending Aorta: Relations With Serum Lipids, 92
Lipid transfer
Relation of Triglyceride Metabolism and Coronary Artery Disease: Studies in the Postprandial State, 1336
Lipids
Continuous Infusion of Interleukin-1β in Rats Induces a Profound Fall in Plasma Levels of Cholesterol and Triglycerides, 1036
Effects of a Monounsaturated Rapeseed Oil and a Polyunsaturated Sunflower Oil Diet on Lipoprotein Levels in Humans, 50
Plasma Lipids and Lipoproteins and the Incidence of Cardiovascular Disease in the Very Elderly: The Bronx Aging Study, 416
Lipopolysaccharide
Increased Susceptibility to Activation and Increased Uptake of Low Density Lipoprotein by Cholesterol-Loaded Macrophages, 745
Low Density Lipoproteins Inhibit Endotoxin Activation of Monocytes, 341
Lipoprotein cholesterol
Apo B Insertion/Deletion Polymorphisms Are Associated With Atherosclerosis in Young Black but Not Young White Males, 1023
Lipoprotein composition
Abnormalities of VLDL, IDL, and LDL Characterize Insulin-Dependent Diabetes Mellitus, 920
Relation Between Insulinemia, Body Mass Index, and Lipoprotein Composition in Healthy, Nondiabetic Men and Women, 393
Lipoprotein influx
Influx In Vivo of Low Density, Intermediate Density, and Very Low Density Lipoproteins Into Aortic Intimas of Genetically Hyperlipidemic Rabbits: Roles of Plasma Concentration, Extent of Aortic Lesion, and Lipoprotein Particle Size as Determinants, 6
Lipoprotein lipase
Delayed Clearance of Postprandial Chylomicrons and Their Remnants in the Hypoalphalipoproteinemia and Mild Hypertriglyceridemia Syndrome, 1184
Familial Combined Hyperlipidemia and Abnormal Lipoprotein Lipase, 1176
Lipoprotein oxidation
Oxidatively Modified HDLs Are Potent Inhibitors of Cholesterol Biosynthesis in Human Skin Fibroblasts, 929
Lipoprotein particles
A Case–Control Study of Lipoprotein Particles in Two Populations at Contrasting Risk for Coronary Heart Disease: The ECTIM Study, 701
Lipoprotein size
Influx In Vivo of Low Density, Intermediate Density, and Very Low Density Lipoproteins Into Aortic Intimas of Genetically Hyperlipidemic Rabbits: Roles of Plasma Concentration, Extent of Aortic Lesion, and Lipoprotein Particle Size as Determinants, 6
Lipoprotein(a)
Apo(a) Isoforms Predict Risk for Coronary Heart Disease: A Study in Six Populations, 1214
Apolipoprotein(a) Alleles Determine Lipoprotein(a) Particle Density and Concentration in Plasma, 302
Attenuation of Immunologic Reactivity of Lipoprotein(a) by Thiols and Cysteine-Containing Compounds: Structural Implications, 424
Hedgehog Lipoprotein(a) Is a Modulator of Activation of Plasminogen at the Fibrin Surface: An In Vitro Study, 146
Lipoproteins and Their Genetic Variation in Subjects With and Without Angiographically Verified Coronary Artery Disease, 58
Significant Association Between Low-Molecular-Weight Apolipoprotein(a) Isoforms and Intermittent Claudication, 895
Lipoprotein–proteoglycan complexes
Lipoprotein–Proteoglycan Complexes From Atherosclerotic Lesions Promote Cholesteryl Ester Accumulation in Human Monocytes/Macrophages, 237
Lipoproteins
A Case–Control Study of Lipoprotein Particles in Two Populations at Contrasting Risk for Coronary Heart Disease: The ECTIM Study, 701
Atherogenesis in Diabetes, 647
Docosahexaenoic and Eicosapentaenoic Acids in Plasma Phospholipids Are Divergently Associated With High Density Lipoprotein in Humans, 675
Effects of a Monounsaturated Rapeseed Oil and a Polyunsaturated Sunflower Oil Diet on Lipoprotein Levels in Humans, 50
Influence of Insulin Resistance, Secretion, and Clearance on Serum Cholesterol, Triglycerides, Lipoprotein Cholesterol, and Blood Pressure in Healthy Men, 1030
Lipoproteins Enhance Fibronectin Binding to Adherent Cells, 1122
Plasma Lipids and Lipoproteins and the Incidence of Cardiovascular Disease in the Very Elderly: The Bronx Aging Study, 416
Turnover of Synthetic Class A Amphipathic Peptide Analogues of Exchangeable Apolipoproteins in Rats: Correlation With Physical Properties, 886
Liver
Hepatic ACAT Activity in African Green Monkeys Is Highly Correlated to Plasma LDL Cholesteryl Ester Enrichment and Coronary Artery Atherosclerosis, 1274
Lovastatin
Dietary Fish Oil Plus Lovastatin Decreases Both VLDL and LDL Apo B Production in Miniature Pigs, 902
Lathosterol and Other Noncholesterol Sterols During Treatment of Hypercholesterolemia With Lovastatin Alone and With Cholestyramine or Guar Gum, 807
Low density lipoprotein accumulation
Time Course of ^{125}I-Labeled LDL Accumulation in the Healing, Balloon-Deendothelialized Rabbit Aorta, 1088
Low density lipoprotein aggregates
Altered Susceptibility to In Vitro Oxidation of LDL in LDL Complexes and LDL Aggregates, 1503
Monoclonal Antibodies Against LDL Further Enhance Macrophage Uptake of LDL Aggregates, 1258
Low density lipoprotein–apolipoprotein B kinetics
Cholesterol Absorption, Elimination, and Synthesis Related to LDL Kinetics During Varying Fat Intake in Men With Different Apoprotein E Phenotypes, 1044
Low density lipoprotein cholesterol
Cholesterol Absorption, Elimination, and Synthesis Related to LDL Kinetics During Varying Fat Intake in Men With Different Apoprotein E Phenotypes, 1044
Effect of Dietary Fatty Acids on Serum Lipids and Lipoproteins: A Meta-analysis of 27 Trials, 911
Low density lipoprotein–chondroitin sulfate complex
Altered Susceptibility to In Vitro Oxidation of LDL in LDL Complexes and LDL Aggregates, 1503
Low density lipoprotein–dextran sulfate complex
Altered Susceptibility to In Vitro Oxidation of LDL in LDL Complexes and LDL Aggregates, 1503
Low density lipoprotein–heparin complex
Altered Susceptibility to In Vitro Oxidation of LDL in LDL Complexes and LDL Aggregates, 1503
Low density lipoprotein heterogeneity
Role of Apolipoprotein E on Cholesteryl Ester–Enriched Low Density Lipoprotein Particles in Coronary Artery Atherosclerosis of Hypercholesterolemic Nonhuman Primates, 28

Low density lipoprotein metabolism
Regional Differences in Arterial Low Density Lipoprotein Metabolism in Surgically Postmenopausal Cynomolgus Monkeys: Effects of Estrogen and Progesterone Replacement Therapy, 717
Low density lipoprotein oxidation
Altered Susceptibility to In Vitro Oxidation of LDL in LDL Complexes and LDL Aggregates, 1503
Supplementation With Vitamin E but Not β-Carotene In Vivo Protects Low Density Lipoprotein From Lipid Peroxidation In Vitro: Effect of Cigarette Smoking, 554
Low density lipoprotein oxidation rate
Effect of Arterial Proteoglycans and Glycosaminoglycans on Low Density Lipoprotein Oxidation and Its Uptake by Human Macrophages and Arterial Smooth Muscle Cells, 569
Low density lipoprotein particle size
Low Density Lipoprotein Particle Size and Coronary Artery Disease, 187
Low density lipoprotein receptor
LDL Binding Sites on Platelets Differ From the "Classical" Receptor of Nucleated Cells, 1353
Oxidatively Modified HDLs Are Potent Inhibitors of Cholesterol Biosynthesis in Human Skin Fibroblasts, 929
Siblings With Normal LDL Receptor Activity and Severe Hypercholesterolemia, 1071
Low density lipoprotein receptor gene
Diagnosis of Heterozygous Familial Hypercholesterolemia: DNA Analysis Complements Clinical Examination and Analysis of Serum Lipid Levels, 584
Low density lipoprotein subclasses
LDL Subclass Phenotypes and Triglyceride Metabolism in Non–Insulin-Dependent Diabetes, 1496
Low density lipoprotein subspecies
Change in LDL Particle Size Is Associated With Change in Plasma Triglyceride Concentration, 1284
Low density lipoproteins
A Monogalactosylated Cholesterol Derivative That Specifically Induces Uptake of LDL by the Liver, 1153
Accumulation of ^{125}I-Tyramine Cellobiose–Labeled Low Density Lipoprotein Is Greater in the Atherosclerosis-Susceptible Region of White Carneau Pigeon Aorta and Further Enhanced Once Atherosclerotic Lesions Develop, 446
Aortic Permeability to LDL as a Predictor of Aortic Cholesterol Accumulation in Cholesterol-Fed Rabbits, 1402
Associations of Lipoproteins and Apolipoproteins With Gradient Gel Electrophoresis Estimates of High Density Lipoprotein Subfractions in Men and Women, 332
Autoradiographic Analysis of the Distribution of ^{125}I–Tyramine-Cellobiose-LDL in Atherosclerotic Lesions of the WHHL Rabbit, 985
Change in LDL Particle Size Is Associated With Change in Plasma Triglyceride Concentration, 1284
Dietary Fish Oil Plus Lovastatin Decreases Both VLDL and LDL Apo B Production in Miniature Pigs, 902
Does the *Eco*RI Polymorphism in the Human Apolipoprotein B Gene Affect the Binding of Low Density Lipoprotein to the Low Density Lipoprotein Receptor? 256
Effect of Dietary Monounsaturated and Polyunsaturated Fatty Acids on the Susceptibility of Plasma Low Density Lipoproteins to Oxidative Modification, 529
Effect of Endothelial Integrity, Transmural Pressure, and Time on the Intimal–Medial Uptake of Serum ^{125}I-Albumin and ^{125}I-LDL in an In Vitro Porcine Arterial Organ-Support System, 1313
Hepatic ACAT Activity in African Green Monkeys Is Highly Correlated to Plasma LDL Cholesteryl Ester Enrichment and Coronary Artery Atherosclerosis, 1274
In Vivo Metabolism of Apolipoprotein A-I in a Patient With Homozygous Familial Hypercholesterolemia, 843
Increased Susceptibility to Activation and Increased Uptake of Low Density Lipoprotein by Cholesterol-Loaded Macrophages, 745
Influx In Vivo of Low Density, Intermediate Density, and Very Low Density Lipoproteins Into Aortic Intimas of Genetically Hyperlipidemic Rabbits: Roles of Plasma Concentration, Extent of Aortic Lesion, and Lipoprotein Particle Size as Determinants, 6
Low Density Lipoproteins Inhibit Endotoxin Activation of Monocytes, 341
Native and Oxidized LDL Enhances Production of PDGF AA and the Surface Expression of PDGF Receptors in Cultured Human Smooth Muscle Cells, 1099
Polymyxin B Enhances Low Density Lipoprotein Catabolism in Hepatic and Extrahepatic Cells, 503
Relation Between Insulinemia, Body Mass Index, and Lipoprotein Composition in Healthy, Nondiabetic Men and Women, 393
Scavenger Receptor–Independent Stimulation of Cholesterol Esterification in Macrophages by Low Density Lipoprotein Extracted From Human Aortic Intima, 608
Superoxide-Dependent Stimulation of Leukocyte Adhesion by Oxidatively Modified LDL In Vivo, 824
The Effect of Interferon on the Metabolism of LDLs, 1053
Low-molecular-weight heparin
Antithrombotic Efficacy of Low-Molecular-Weight Heparin in Deep Arterial Injury, 250
Lumen diameter
Difference in Dilatation Between Endothelium-Preserved and -Desquamated Segments in the Flow-Loaded Rat Common Carotid Artery, 519
Lymphocytes
Induction of T-Cell Activation by Oxidized Low Density Lipoprotein, 461
Lysine
Antifibrinolytic Activities of α-*N*-Acetyl-L-Lysine Methyl Ester, ε-Aminocaproic Acid, and Tranexamic Acid: Importance of Kringle Interactions and Active Site Inhibition, 708
Lysyl oxidase
Role of the Extracellular Matrix in Age-Related Modifications of the Rat Aorta: Ultrastructural, Morphometric, and Enzymatic Evaluations, 1008

M

α_2-Macroglobulin
Antifibrinolytic Activities of α-*N*-Acetyl-L-Lysine Methyl Ester, ε-Aminocaproic Acid, and Tranexamic Acid: Importance of Kringle Interactions and Active Site Inhibition, 708
Macrophage activation
Increased Susceptibility to Activation and Increased Uptake of Low Density Lipoprotein by Cholesterol-Loaded Macrophages, 745
Macrophage degradation
Effect of Probucol Dosage on Plasma Lipid and Lipoprotein Levels and on Protection of Low Density Lipoprotein Against In Vitro Oxidation in Humans, 318
Macrophage-derived foam cells
Autoradiographic Analysis of the Distribution of ^{125}I–Tyramine-Cellobiose-LDL in Atherosclerotic Lesions of the WHHL Rabbit, 985
Endocytosis of Oxidized LDL and Reversibility of Migration Inhibition in Macrophage-Derived Foam Cells In Vitro: A Mechanism for Atherosclerosis Regression? 936
Macrophages
β-VLDL–Induced Cholesterol Ester Deposition in Macrophages May Be Regulated by Neutral Cholesterol Esterase Activity, 1139
Cholesterol Efflux Is Defective in Macrophages From Atherosclerosis-Susceptible White Carneau Pigeons Relative to Resistant Show Racer Pigeons, 1291
Etoposide Treatment Suppresses Atherosclerotic Plaque Development in Cholesterol-Fed Rabbits, 1363
Involvement of the Macrophage Low Density Lipoprotein Receptor–Binding Domains in the Uptake of Oxidized Low Density Lipoprotein, 484

Monoclonal Antibodies Against LDL Further Enhance Macrophage Uptake of LDL Aggregates, 1258
Probucol Pretreatment Enhances the Chemotaxis of Mouse Peritoneal Macrophages, 593
Redirected Targeting of LDL to Human Monocyte Fcγ Receptors With Bispecific Antibodies, 1131
Scavenger Receptor–Independent Stimulation of Cholesterol Esterification in Macrophages by Low Density Lipoprotein Extracted From Human Aortic Intima, 608
Time Course and Cellular Characteristics of the Iliac Artery Response to Acute Balloon Injury: An Angiographic, Morphometric, and Immunocytochemical Analysis in the Cholesterol-Fed New Zealand White Rabbit, 1267

Marine lipids
Effect of Marine Lipids on Cholesteryl Ester Transfer and Lipoprotein Composition in Patients With Hypercholesterolemia, 1146

Mathematical models
Effect of Endothelial Integrity, Transmural Pressure, and Time on the Intimal–Medial Uptake of Serum ^{125}I-Albumin and ^{125}I-LDL in an In Vitro Porcine Arterial Organ-Support System, 1313
Influence of Insulin Resistance, Secretion, and Clearance on Serum Cholesterol, Triglycerides, Lipoprotein Cholesterol, and Blood Pressure in Healthy Men, 1030

Maxepa
Dietary Fish Oil Plus Lovastatin Decreases Both VLDL and LDL Apo B Production in Miniature Pigs, 902

MB24
Monoclonal Antibodies Against LDL Further Enhance Macrophage Uptake of LDL Aggregates, 1258

MB47
Monoclonal Antibodies Against LDL Further Enhance Macrophage Uptake of LDL Aggregates, 1258

Media
Effect of Endothelial Integrity, Transmural Pressure, and Time on the Intimal–Medial Uptake of Serum ^{125}I-Albumin and ^{125}I-LDL in an In Vitro Porcine Arterial Organ-Support System, 1313
Effect of Pressure on Aortic Hydraulic Conductance, 163

Meeting summaries
The 12th Annual European Conference on Vascular Biology, 645
The 14th Annual Meeting of the European Lipoprotein Club, 534

Menopause
Regional Differences in Arterial Low Density Lipoprotein Metabolism in Surgically Postmenopausal Cynomolgus Monkeys: Effects of Estrogen and Progesterone Replacement Therapy, 717

Mesothelial cells
Thrombogenicity and Procoagulant Activity of Human Mesothelial Cells, 1428

Meta-analysis
Effect of Dietary Fatty Acids on Serum Lipids and Lipoproteins: A Meta-analysis of 27 Trials, 911

Metabolism
Turnover of Synthetic Class A Amphipathic Peptide Analogues of Exchangeable Apolipoproteins in Rats: Correlation With Physical Properties, 886

Microcirculation
Superoxide-Dependent Stimulation of Leukocyte Adhesion by Oxidatively Modified LDL In Vivo, 824

Microsurgery
Delivery of Passivating Proteins to Sutures During Passage Through the Vessel Wall Reduces Subsequent Platelet Deposition by Blocking Fibrinogen Adsorption, 727

Migration
Endocytosis of Oxidized LDL and Reversibility of Migration Inhibition in Macrophage-Derived Foam Cells In Vitro: A Mechanism for Atherosclerosis Regression? 936

Minimally modified low density lipoprotein
Mechanisms Controlling Competence Gene Expression in Murine Fibroblasts Stimulated With Minimally Modified LDL, 800

Mitogenicity
Mitogenic Activity of Interferon Gamma on Growth-Arrested Human Vascular Smooth Muscle Cells, 1393

Monoclonal antibodies
Involvement of the Macrophage Low Density Lipoprotein Receptor–Binding Domains in the Uptake of Oxidized Low Density Lipoprotein, 484
Monoclonal Antibodies Against LDL Further Enhance Macrophage Uptake of LDL Aggregates, 1258

Monocyte chemotactic protein–1
Monocytes May Amplify Their Recruitment Into Inflammatory Lesions by Inducing Monocyte Chemotactic Protein, 78

Monocyte lipid composition
Evidence for an Altered Lipid Metabolic State in Circulating Blood Monocytes Under Conditions of Hyperlipemia in Swine and Its Implications in Arterial Lipid Metabolism, 155

Monocytes
Induction of T-Cell Activation by Oxidized Low Density Lipoprotein, 461
Low Density Lipoproteins Inhibit Endotoxin Activation of Monocytes, 341
Monocytes May Amplify Their Recruitment Into Inflammatory Lesions by Inducing Monocyte Chemotactic Protein, 78
The Protein C Anticoagulant Pathway, 135

Monocytes/macrophages
Evidence for an Altered Lipid Metabolic State in Circulating Blood Monocytes Under Conditions of Hyperlipemia in Swine and Its Implications in Arterial Lipid Metabolism, 155
Lipoprotein–Proteoglycan Complexes From Atherosclerotic Lesions Promote Cholesteryl Ester Accumulation in Human Monocytes/Macrophages, 237

Monounsaturates
Effects of a Monounsaturated Rapeseed Oil and a Polyunsaturated Sunflower Oil Diet on Lipoprotein Levels in Humans, 50

Mortality
Does Body Fatness Modify the Association Between Dietary Cholesterol and Risk of Coronary Death? Results From The Chicago Western Electric Study, 755

mRNA
Regulation of Lipoprotein Lipase Secretion in Murine Macrophages During Foam Cell Formation In Vitro: Effect of Triglyceride-Rich Lipoproteins, 1458

mRNA processing
Ontogenetic Regulation of Apolipoprotein B mRNA Editing During Human and Rat Development In Vivo, 468

Multicenter studies
The PLAT Study: Hemostatic Function in Relation to Atherothrombotic Ischemic Events in Vascular Disease Patients: Principal Results, 1063

Mutations
Characterization of Deletions in the LDL Receptor Gene in Patients With Familial Hypercholesterolemia in the United Kingdom, 762

Myocardial infarction
Persistent Generation of Thrombin After Acute Myocardial Infarction, 548

N

n-3 Polyunsaturated fatty acids
Docosahexaenoic and Eicosapentaenoic Acids in Plasma Phospholipids Are Divergently Associated With High Density Lipoprotein in Humans, 675

Native blood
Increased Lipid Binding to Thrombi in Coronary Artery Disease: Findings in Patients Without Premedication in Native (Not Anticoagulated) Test Systems, 1516

Neointima
Structural Changes and Recovery of Function After Arterial Injury, 307
Neutral cholesterol esterase
β-VLDL–Induced Cholesterol Ester Deposition in Macrophages May Be Regulated by Neutral Cholesterol Esterase Activity, 1139
Neutrophils
Vascular Endothelial Cell Proteoglycans Are Susceptible to Cleavage by Neutrophils, 836
Nicotine
Long-term Nicotine Exposure Increases Aortic Endothelial Cell Death and Enhances Transendothelial Macromolecular Transport in Rats, 1305
NMR spectra
Effect of Dietary Supplementation With n-3 Polyunsaturated Fatty Acids on Physical Properties and Metabolism of Low Density Lipoprotein in Humans, 369
Non–insulin-dependent diabetes mellitus
Early Abnormalities in Coronary Heart Disease Risk Factors in Relatives of Subjects With Non–Insulin-Dependent Diabetes, 657
LDL Subclass Phenotypes and Triglyceride Metabolism in Non–Insulin-Dependent Diabetes, 1496

O

O.J. Pollak
The Origin of the Council on Arteriosclerosis, 543
Obesity
Atherogenesis in Diabetes, 647
Persistence of Abnormalities in Metabolism of Apolipoproteins B-100 and A-I After Weight Reduction in Patients With Primary Hypertriglyceridemia, 976
Reduced HDL_2 Cholesterol Subspecies and Elevated Postheparin Hepatic Lipase Activity in Older Men With Abdominal Obesity and Asymptomatic Myocardial Ischemia, 814
Relation Between Insulinemia, Body Mass Index, and Lipoprotein Composition in Healthy, Nondiabetic Men and Women, 393
Oleic acid
Effect of Dietary Monounsaturated and Polyunsaturated Fatty Acids on the Susceptibility of Plasma Low Density Lipoproteins to Oxidative Modification, 529
Olive oil
Effect of Dietary Olive and Sunflower Oils on the Lipid Composition of the Aorta and Platelets and on Blood Eicosanoids in Rats, 830
Oxidation
Native and Oxidized LDL Enhances Production of PDGF AA and the Surface Expression of PDGF Receptors in Cultured Human Smooth Muscle Cells, 1099
Superoxide-Dependent Stimulation of Leukocyte Adhesion by Oxidatively Modified LDL In Vivo, 824
Oxidatively modified low density lipoproteins
Characterization of the Interaction of Acetylated LDL and Oxidatively Modified LDL With Human Liver Parenchymal and Kupffer Cells in Culture, 1079
Oxidized low density lipoproteins
Effect of Dietary Monounsaturated and Polyunsaturated Fatty Acids on the Susceptibility of Plasma Low Density Lipoproteins to Oxidative Modification, 529
Endocytosis of Oxidized LDL and Reversibility of Migration Inhibition in Macrophage-Derived Foam Cells In Vitro: A Mechanism for Atherosclerosis Regression? 936
Inhibition of Cyclic AMP– and Cyclic GMP–Mediated Dilations in Isolated Arteries by Oxidized Low Density Lipoproteins, 180
Involvement of the Macrophage Low Density Lipoprotein Receptor–Binding Domains in the Uptake of Oxidized Low Density Lipoprotein, 484
Oxidation of Low Density Lipoprotein Enhances Its Potential to Increase Intracellular Free Calcium Concentration in Vascular Smooth Muscle Cells, 231
Scavenger Receptor–Independent Stimulation of Cholesterol Esterification in Macrophages by Low Density Lipoprotein Extracted From Human Aortic Intima, 608
Oxidized β–very low density lipoproteins
Recognition Sites on Rat Liver Cells for Oxidatively Modified β–Very Low Density Lipoproteins, 41
Oxygen free radicals
Immunolocalization of Native Antioxidant Scavenger Enzymes in Early Hypertensive and Atherosclerotic Arteries: Role of Oxygen Free Radicals, 403

P

PAI-1 gene expression
Augmented Arterial Wall Expression of Type-1 Plasminogen Activator Inhibitor Induced by Thrombosis, 1507
Parenchymal liver cells
A Monogalactosylated Cholesterol Derivative That Specifically Induces Uptake of LDL by the Liver, 1153
Paris Prospective Study
Upper-Body Fat Distribution: A Hyperinsulinemia-Independent Predictor of Coronary Heart Disease Mortality: The Paris Prospective Study, 1387
Percutaneous transluminal coronary angioplasty
Activation of Platelets in Blood Perfusing Angioplasty-Damaged Coronary Arteries: Flow Cytometric Detection, 1475
Pericellular proteolysis
Regulation of the Urokinase-Type Plasminogen Activator Receptor on Vascular Smooth Muscle Cells Is Under the Control of Thrombin and Other Mitogens, 1161
Peripheral blood mononuclear cells
Effect of Dietary Supplementation With n-3 Polyunsaturated Fatty Acids on Physical Properties and Metabolism of Low Density Lipoprotein in Humans, 369
Permeability
Long-term Nicotine Exposure Increases Aortic Endothelial Cell Death and Enhances Transendothelial Macromolecular Transport in Rats, 1305
Phagocytosis
Monoclonal Antibodies Against LDL Further Enhance Macrophage Uptake of LDL Aggregates, 1258
Phospholipase C
Oxidized Low Density Lipoproteins Stimulate Phosphoinositide Turnover in Cultured Vascular Smooth Muscle Cells, 278
Phospholipids
Abnormalities of VLDL, IDL, and LDL Characterize Insulin-Dependent Diabetes Mellitus, 920
Pigeons
Accumulation of ^{125}I-Tyramine Cellobiose–Labeled Low Density Lipoprotein Is Greater in the Atherosclerosis-Susceptible Region of White Carneau Pigeon Aorta and Further Enhanced Once Atherosclerotic Lesions Develop, 446
Cholesterol Efflux Is Defective in Macrophages From Atherosclerosis-Susceptible White Carneau Pigeons Relative to Resistant Show Racer Pigeons, 1291
Pituitary
Pituitary Factors in Blood Plasma Are Necessary for Smooth Muscle Cell Proliferation in Response to Injury In Vivo, 1488
Plaque
Noninvasive Quantification of Atherosclerotic Lesions: Reproducibility of Ultrasonographic Measurement of Arterial Wall Thickness and Plaque Size, 261
Quantification of Atherosclerotic Plaque Composition in Cholesterol-Fed Rabbits With 50-MHz Acoustic Microscopy, 1227
Plaque localization
Experimental Atherosclerosis at the Carotid Bifurcation of the Cynomolgus Monkey: Localization, Compensatory Enlargement, and the Sparing Effect of Lowered Heart Rate, 1245

Plaque progression
Etoposide Treatment Suppresses Atherosclerotic Plaque Development in Cholesterol-Fed Rabbits, 1363
Plasma
Pituitary Factors in Blood Plasma Are Necessary for Smooth Muscle Cell Proliferation in Response to Injury In Vivo, 1488
Plasma insulin level
Upper-Body Fat Distribution: A Hyperinsulinemia-Independent Predictor of Coronary Heart Disease Mortality: The Paris Prospective Study, 1387
Plasma lipoproteins
LDL Particle Size Distribution: Results From the Framingham Offspring Study, 1410
Low Density Lipoprotein Particle Size and Coronary Artery Disease, 187
Plasma phospholipids
Docosahexaenoic and Eicosapentaenoic Acids in Plasma Phospholipids Are Divergently Associated With High Density Lipoprotein in Humans, 675
Plasmapheresis
Siblings With Normal LDL Receptor Activity and Severe Hypercholesterolemia, 1071
Plasmin
Antifibrinolytic Activities of α-*N*-Acetyl-L-Lysine Methyl Ester, ε-Aminocaproic Acid, and Tranexamic Acid: Importance of Kringle Interactions and Active Site Inhibition, 708
Regulation of the Urokinase-Type Plasminogen Activator Receptor on Vascular Smooth Muscle Cells Is Under the Control of Thrombin and Other Mitogens, 1161
Plasminogen activation
Hedgehog Lipoprotein(a) Is a Modulator of Activation of Plasminogen at the Fibrin Surface: An In Vitro Study, 146
Plasminogen activator inhibitor
Modulation of Fibrinolytic Response to Venous Occlusion in Humans by a Combination of Low-Dose Aspirin and n-3 Polyunsaturated Fatty Acids, 1191
Plasminogen activator inhibitor–1
Hypertriglyceridemia and Regulation of Fibrinolytic Activity, 19
Plasminogen activators
Vampire Bat Salivary Plasminogen Activator Promotes Rapid and Sustained Reperfusion Without Concomitant Systemic Plasminogen Activation in a Canine Model of Arterial Thrombosis, 212
Platelet aggregation
LDL Binding Sites on Platelets Differ From the "Classical" Receptor of Nucleated Cells, 1353
Plasma From Systemic Lupus Erythematosus Patients With Antiphospholipid Antibodies Promotes Platelet Aggregation: Studies in a Perfusion System, 196
Platelet Function and Composition in Heart Transplant Recipients Compared With Nontransplanted Coronary Patients, 222
Platelet-derived growth factor
Mitogenic Activity of Interferon Gamma on Growth-Arrested Human Vascular Smooth Muscle Cells, 1393
Platelet-derived growth factor receptor
Mitogenic Activity of Interferon Gamma on Growth-Arrested Human Vascular Smooth Muscle Cells, 1393
Platelet fatty acids
Platelet Function and Composition in Heart Transplant Recipients Compared With Nontransplanted Coronary Patients, 222
Platelet function
Acute In Vitro Effects of Ethanol on Responses of Platelets From Cholesterol-Fed and Watanabe Heritable Hyperlipidemic Rabbits, 437
Platelet membrane glycoproteins
Activation of Platelets in Blood Perfusing Angioplasty-Damaged Coronary Arteries: Flow Cytometric Detection, 1475
Platelet receptors
Activation of Platelets in Blood Perfusing Angioplasty-Damaged Coronary Arteries: Flow Cytometric Detection, 1475
Platelets
Antithrombotic Effect of a Monoclonal Antibody Against Tissue Factor in a Rabbit Model of Platelet-Mediated Arterial Thrombosis, 948
Binding of ^{111}In-Labeled HDL to Platelets From Normolipemic Volunteers and Patients With Heterozygous Familial Hypercholesterolemia, 849
Clopidogrel Inhibits the Binding of ADP Analogues to the Receptor Mediating Inhibition of Platelet Adenylate Cyclase, 430
Delivery of Passivating Proteins to Sutures During Passage Through the Vessel Wall Reduces Subsequent Platelet Deposition by Blocking Fibrinogen Adsorption, 727
Effect of Atherosclerosis on Responses of the Perfused Rabbit Carotid Artery to Human Platelets, 1206
Effect of Dietary Olive and Sunflower Oils on the Lipid Composition of the Aorta and Platelets and on Blood Eicosanoids in Rats, 830
Effect of Various Blood-Derived and Semisynthetic Nutrient Media on In Vitro Uptake of ^{125}I-Albumin Across the Intact Porcine Aortic Endothelial Surface in an Organ-Support System, 357
Polymorphonuclear Leukocyte Adhesion to Endothelial Cells Is Inhibited by Resting Platelets, 1420
Polyclonal antibodies
Immunolocalization of Native Antioxidant Scavenger Enzymes in Early Hypertensive and Atherosclerotic Arteries: Role of Oxygen Free Radicals, 403
Polymorphisms
Apo B Insertion/Deletion Polymorphisms Are Associated With Atherosclerosis in Young Black but Not Young White Maies, 1023
Characterization of Deletions in the LDL Receptor Gene in Patients With Familial Hypercholesterolemia in the United Kingdom, 762
Polymorphonuclear leukocytes
Polymorphonuclear Leukocyte Adhesion to Endothelial Cells Is Inhibited by Resting Platelets, 1420
Polymyxin B
Polymyxin B Enhances Low Density Lipoprotein Catabolism in Hepatic and Extrahepatic Cells, 503
Polyunsaturated fatty acids
Modulation of Fibrinolytic Response to Venous Occlusion in Humans by a Combination of Low-Dose Aspirin and n-3 Polyunsaturated Fatty Acids, 1191
ω-3 Polyunsaturated fatty acids
Reevaluation of Regression of Coronary Arteriosclerotic Lesions in Repeat-Spawning Steelhead Trout, 1171
Polyunsaturates
Effects of a Monounsaturated Rapeseed Oil and a Polyunsaturated Sunflower Oil Diet on Lipoprotein Levels in Humans, 50
Pool sizes
Increased Sitosterol Absorption Is Offset by Rapid Elimination to Prevent Accumulation in Heterozygotes With Sitosterolemia, 563
Population genetics
Apo(a) Isoforms Predict Risk for Coronary Heart Disease: A Study in Six Populations, 1214
Population study
Lipoprotein Profile of a Greenland Inuit Population: Influence of Anthropometric Variables, Apo E and A4 Polymorphism, and Lifestyle, 1371
Porcine liver
High Density Lipoprotein–Binding Proteins in Porcine Liver: Isolation and Histological Localization, 325
Postprandial lipemia
Delayed Clearance of Postprandial Chylomicrons and Their Remnants in the Hypoalphalipoproteinemia and Mild Hypertriglyceridemia Syndrome, 1184
Normal Postprandial Lipemia in Men With Low Plasma HDL Concentrations, 972

Relation of Triglyceride Metabolism and Coronary Artery Disease: Studies in the Postprandial State, 1336

Primates
Hepatic ACAT Activity in African Green Monkeys Is Highly Correlated to Plasma LDL Cholesteryl Ester Enrichment and Coronary Artery Atherosclerosis, 1274

Probucol
Contribution of the Endothelium to Intimal Thickening in Normocholesterolemic and Hypercholesterolemic Rabbits, 1198
Probucol Increases the Selective Uptake of HDL Cholesterol Esters by Hep G2 Human Hepatoma Cells, 870
Probucol Pretreatment Enhances the Chemotaxis of Mouse Peritoneal Macrophages, 593
Transport of HDL Cholesterol Esters to the Liver Is Not Diminished by Probucol Treatment in Rats, 862

Procoagulant activity
Thrombogenicity and Procoagulant Activity of Human Mesothelial Cells, 1428

Proliferating cell nuclear antigen
Triphasic Sequence of Neointimal Formation in the Cuffed Carotid Artery of the Rabbit, 1447

Proliferation
In Vivo Effect of Insulin on the Acute Proliferative Response of the Rat Aorta to Injury, 633

Promoter
Interaction Between a Polymorphism of the Apo A-I Promoter Region and Smoking Determines Plasma Levels of HDL and Apo A-I, 1017

Prostaglandin I_2
Functional Implications of cAMP and Ca^{2+} on Prostaglandin I_2 and Thromboxane A_2 Synthesis by Human Endothelial Cells, 512

Protein C
The Protein C Anticoagulant Pathway, 135

Protein S
The Protein C Anticoagulant Pathway, 135

Proteins
Abnormalities of VLDL, IDL, and LDL Characterize Insulin-Dependent Diabetes Mellitus, 920

Proteoglycans
Demonstration of a Keratan Sulfate–Containing Proteoglycan in Atherosclerotic Aorta, 83
Effect of Arterial Proteoglycans and Glycosaminoglycans on Low Density Lipoprotein Oxidation and Its Uptake by Human Macrophages and Arterial Smooth Muscle Cells, 569
Polarized Binding of Lipoprotein Lipase to Endothelial Cells: Implications for Its Physiological Actions, 1437

Pulsed Doppler velocimeter
Blood Velocity Profiles in the Origin of the Canine Renal Artery and Their Relevance in the Localization and Development of Atherosclerosis, 626

Q

Quantitative coronary angiography
Comparison of Computer- and Human-Derived Coronary Angiographic End-Point Measures for Controlled Therapy Trials, 348

R

Rabbit aorta
Effect of Pressure on Aortic Hydraulic Conductance, 163

Rabbit carotid artery
Inhibition of Leukocyte Extravasation With a Monoclonal Antibody to CD18 During Formation of Experimental Intimal Thickening in Rabbit Carotid Arteries, 997

Rabbits
Effect of Induced Hypercholesterolemia in Rabbits on Functional Responses of Isolated Large Proximal and Small Distal Coronary Arteries, 380
Tissue and Species Differences in Bile Salt–Dependent Neutral Cholesteryl Ester Hydrolase Activity and Gene Expression, 295

Rapeseed oil
Effects of a Monounsaturated Rapeseed Oil and a Polyunsaturated Sunflower Oil Diet on Lipoprotein Levels in Humans, 50

Rat liver endothelial cells
Recognition Sites on Rat Liver Cells for Oxidatively Modified β–Very Low Density Lipoproteins, 41

Rats
Continuous Infusion of Interleukin-1β in Rats Induces a Profound Fall in Plasma Levels of Cholesterol and Triglycerides, 1036
Difference in Dilatation Between Endothelium-Preserved and -Desquamated Segments in the Flow-Loaded Rat Common Carotid Artery, 519
Flow Affects Development of Intimal Hyperplasia After Arterial Injury in Rats, 963
Pituitary Factors in Blood Plasma Are Necessary for Smooth Muscle Cell Proliferation in Response to Injury In Vivo, 1488
Role of the Extracellular Matrix in Age-Related Modifications of the Rat Aorta: Ultrastructural, Morphometric, and Enzymatic Evaluations, 1008
Tissue and Species Differences in Bile Salt–Dependent Neutral Cholesteryl Ester Hydrolase Activity and Gene Expression, 295
Transport of HDL Cholesterol Esters to the Liver Is Not Diminished by Probucol Treatment in Rats, 862

Receptor activity
Cholesterol Absorption, Elimination, and Synthesis Related to LDL Kinetics During Varying Fat Intake in Men With Different Apoprotein E Phenotypes, 1044

Receptor binding
Does the *Eco*RI Polymorphism in the Human Apolipoprotein B Gene Affect the Binding of Low Density Lipoprotein to the Low Density Lipoprotein Receptor? 256

Receptor endocytosis
Oxidized Low Density Lipoproteins Stimulate Phosphoinositide Turnover in Cultured Vascular Smooth Muscle Cells, 278

Renal artery
Blood Velocity Profiles in the Origin of the Canine Renal Artery and Their Relevance in the Localization and Development of Atherosclerosis, 626

Reproducibility
Arterial Wall Thickness in Familial Hypercholesterolemia: Ultrasound Measurement of Intima–Media Thickness in the Common Carotid Artery, 70
Noninvasive Quantification of Atherosclerotic Lesions: Reproducibility of Ultrasonographic Measurement of Arterial Wall Thickness and Plaque Size, 261

Restriction fragment length polymorphisms
A DNA Polymorphism for LCAT Is Associated With Altered LCAT Activity and High Density Lipoprotein Size Distributions in Baboons, 682

Retinyl palmitate
Delayed Clearance of Postprandial Chylomicrons and Their Remnants in the Hypoalphalipoproteinemia and Mild Hypertriglyceridemia Syndrome, 1184

Reverse cholesterol transport
Effect of Marine Lipids on Cholesteryl Ester Transfer and Lipoprotein Composition in Patients With Hypercholesterolemia, 1146
Oxidatively Modified HDLs Are Potent Inhibitors of Cholesterol Biosynthesis in Human Skin Fibroblasts, 929
Relation of Triglyceride Metabolism and Coronary Artery Disease: Studies in the Postprandial State, 1336
Transport of HDL Cholesterol Esters to the Liver Is Not Diminished by Probucol Treatment in Rats, 862

Review
The Protein C Anticoagulant Pathway, 135

Right coronary artery
Apo B Insertion/Deletion Polymorphisms Are Associated With Atherosclerosis in Young Black but Not Young White Males, 1023

Risk factors
Significant Association Between Low-Molecular-Weight Apolipoprotein(a) Isoforms and Intermittent Claudication, 895
The PLAT Study: Hemostatic Function in Relation to Atherothrombotic Ischemic Events in Vascular Disease Patients: Principal Results, 1063
Upper-Body Fat Distribution: A Hyperinsulinemia-Independent Predictor of Coronary Heart Disease Mortality: The Paris Prospective Study, 1387

RNA editing
Characterization of Apolipoprotein B mRNA Editing From Rabbit Intestine, 172

RNA processing
Characterization of Apolipoprotein B mRNA Editing From Rabbit Intestine, 172

S

Scavenger receptors
Characterization of the Interaction of Acetylated LDL and Oxidatively Modified LDL With Human Liver Parenchymal and Kupffer Cells in Culture, 1079
Further Characterization of the Acetyl LDL (Scavenger) Receptor Expressed by Rabbit Smooth Muscle Cells and Fibroblasts, 1235
Recognition Sites on Rat Liver Cells for Oxidatively Modified β–Very Low Density Lipoproteins, 41

Second messengers
Oxidized Low Density Lipoproteins Stimulate Phosphoinositide Turnover in Cultured Vascular Smooth Muscle Cells, 278

Septic shock
Low Density Lipoproteins Inhibit Endotoxin Activation of Monocytes, 341

Serotonin
Effect of Atherosclerosis on Responses of the Perfused Rabbit Carotid Artery to Human Platelets, 1206

Serum cholesterol
Apo B Insertion/Deletion Polymorphisms Are Associated With Atherosclerosis in Young Black but Not Young White Males, 1023
Fasting Blood Coagulation and Fibrinolysis of Young Adults Unchanged by Reduction in Dietary Fat Content, 201

Serum lipids
Influence of Insulin Resistance, Secretion, and Clearance on Serum Cholesterol, Triglycerides, Lipoprotein Cholesterol, and Blood Pressure in Healthy Men, 1030

Serum proteins
Effect of Endothelial Integrity, Transmural Pressure, and Time on the Intimal–Medial Uptake of Serum ^{125}I-Albumin and ^{125}I-LDL in an In Vitro Porcine Arterial Organ-Support System, 1313

Sex differences
Associations of Lipoproteins and Apolipoproteins With Gradient Gel Electrophoresis Estimates of High Density Lipoprotein Subfractions in Men and Women, 332

Sex hormones
Regional Differences in Arterial Low Density Lipoprotein Metabolism in Surgically Postmenopausal Cynomolgus Monkeys: Effects of Estrogen and Progesterone Replacement Therapy, 717

Shear stress
Difference in Dilatation Between Endothelium-Preserved and -Desquamated Segments in the Flow-Loaded Rat Common Carotid Artery, 519
Vascular Endothelium Responds to Fluid Shear Stress Gradients, 1254

Silent myocardial ischemia
Reduced HDL_2 Cholesterol Subspecies and Elevated Posthepatic Hepatic Lipase Activity in Older Men With Abdominal Obesity and Asymptomatic Myocardial Ischemia, 814

Sitosterol absorption
Increased Sitosterol Absorption Is Offset by Rapid Elimination to Prevent Accumulation in Heterozygotes With Sitosterolemia, 563

Sitosterolemia
Increased Sitosterol Absorption Is Offset by Rapid Elimination to Prevent Accumulation in Heterozygotes With Sitosterolemia, 563

Smoking
Interaction Between a Polymorphism of the Apo A-I Promoter Region and Smoking Determines Plasma Levels of HDL and Apo A-I, 1017
Smoking Is a Potential Confounder of the *Chlamydia pneumoniae*–Coronary Artery Disease Association, 945

Smooth muscle cell migration
Inhibition of Leukocyte Extravasation With a Monoclonal Antibody to CD18 During Formation of Experimental Intimal Thickening in Rabbit Carotid Arteries, 997
Native and Oxidized LDL Enhances Production of PDGF AA and the Surface Expression of PDGF Receptors in Cultured Human Smooth Muscle Cells, 1099

Smooth muscle cell proliferation
Pituitary Factors in Blood Plasma Are Necessary for Smooth Muscle Cell Proliferation in Response to Injury In Vivo, 1488

Smooth muscle cells
Etoposide Treatment Suppresses Atherosclerotic Plaque Development in Cholesterol-Fed Rabbits, 1363
Flow Affects Development of Intimal Hyperplasia After Arterial Injury in Rats, 963
Further Characterization of the Acetyl LDL (Scavenger) Receptor Expressed by Rabbit Smooth Muscle Cells and Fibroblasts, 1235
In Vivo Effect of Insulin on the Acute Proliferative Response of the Rat Aorta to Injury, 633
Mitogenic Activity of Interferon Gamma on Growth-Arrested Human Vascular Smooth Muscle Cells, 1393
Pituitary Factors in Blood Plasma Are Necessary for Smooth Muscle Cell Proliferation in Response to Injury In Vivo, 1488
Polymyxin B Enhances Low Density Lipoprotein Catabolism in Hepatic and Extrahepatic Cells, 503
Time Course and Cellular Characteristics of the Iliac Artery Response to Acute Balloon Injury: An Angiographic, Morphometric, and Immunocytochemical Analysis in the Cholesterol-Fed New Zealand White Rabbit, 1267
Triphasic Sequence of Neointimal Formation in the Cuffed Carotid Artery of the Rabbit, 1447

Solid-phase fibrin
Hedgehog Lipoprotein(a) Is a Modulator of Activation of Plasminogen at the Fibrin Surface: An In Vitro Study, 146

Special Report
A Definition of the Intima of Human Arteries and of Its Atherosclerosis-Prone Regions: A Report From the Committee on Vascular Lesions of the Council on Arteriosclerosis, American Heart Association, 120

St. Thomas's Hospital rabbit strain
Influx In Vivo of Low Density, Intermediate Density, and Very Low Density Lipoproteins Into Aortic Intimas of Genetically Hyperlipidemic Rabbits: Roles of Plasma Concentration, Extent of Aortic Lesion, and Lipoprotein Particle Size as Determinants, 6

Steelhead trout
Reevaluation of Regression of Coronary Arteriosclerotic Lesions in Repeat-Spawning Steelhead Trout, 1171

Steroid hormone receptors
Fibrates Influence the Expression of Genes Involved in Lipoprotein Metabolism in a Tissue-Selective Manner in the Rat, 286

Stiffness
Prediction of Mechanical Properties of Human Atherosclerotic Tissue by High-Frequency Intravascular Ultrasound Imaging: An In Vitro Study, 1
Stress
Prediction of Mechanical Properties of Human Atherosclerotic Tissue by High-Frequency Intravascular Ultrasound Imaging: An In Vitro Study, 1
Stress proteins
Induction of Arteriosclerosis in Normocholesterolemic Rabbits by Immunization With Heat Shock Protein 65, 789
Subendothelium
Delivery of Passivating Proteins to Sutures During Passage Through the Vessel Wall Reduces Subsequent Platelet Deposition by Blocking Fibrinogen Adsorption, 727
Superoxide dismutase
Immunolocalization of Native Antioxidant Scavenger Enzymes in Early Hypertensive and Atherosclerotic Arteries: Role of Oxygen Free Radicals, 403
Superoxide-Dependent Stimulation of Leukocyte Adhesion by Oxidatively Modified LDL In Vivo, 824
Swine
Effect of Endothelial Integrity, Transmural Pressure, and Time on the Intimal–Medial Uptake of Serum ^{125}I-Albumin and ^{125}I-LDL in an In Vitro Porcine Arterial Organ-Support System, 1313
Systemic lupus erythematosus
Plasma From Systemic Lupus Erythematosus Patients With Antiphospholipid Antibodies Promotes Platelet Aggregation: Studies in a Perfusion System, 196

T

T lymphocytes
T Lymphocytes in Human Atherosclerotic Plaques Are Memory Cells Expressing CD45RO and the Integrin VLA-1, 206
Thienopyridine
Clopidogrel Inhibits the Binding of ADP Analogues to the Receptor Mediating Inhibition of Platelet Adenylate Cyclase, 430
Thiol compounds
Attenuation of Immunologic Reactivity of Lipoprotein(a) by Thiols and Cysteine-Containing Compounds: Structural Implications, 424
Thoracic aorta
Apo B Insertion/Deletion Polymorphisms Are Associated With Atherosclerosis in Young Black but Not Young White Males, 1023
Thrombin
Antithrombotic Efficacy of Low-Molecular-Weight Heparin in Deep Arterial Injury, 250
Persistent Generation of Thrombin After Acute Myocardial Infarction, 548
Regulation of the Urokinase-Type Plasminogen Activator Receptor on Vascular Smooth Muscle Cells Is Under the Control of Thrombin and Other Mitogens, 1161
Thrombogenicity
Thrombogenicity and Procoagulant Activity of Human Mesothelial Cells, 1428
Thrombolysis
Vampire Bat Salivary Plasminogen Activator Promotes Rapid and Sustained Reperfusion Without Concomitant Systemic Plasminogen Activation in a Canine Model of Arterial Thrombosis, 212
Thrombomodulin
The Protein C Anticoagulant Pathway, 135
Thromboplastin
Prostacyclin Analogues Inhibit Tissue Factor Expression in the Human Monocytic Cell Line THP-1 Via a Cyclic AMP–Dependent Mechanism, 664
Thrombosis
Augmented Arterial Wall Expression of Type-1 Plasminogen Activator Inhibitor Induced by Thrombosis, 1507
Comparative Copper Coil–Induced Thrombogenicity of the Internal Mammary, Left Anterior Descending Coronary, and Popliteal Arteries in Dogs, 639
The PLAT Study: Hemostatic Function in Relation to Atherothrombotic Ischemic Events in Vascular Disease Patients: Principal Results, 1063
The Protein C Anticoagulant Pathway, 135
Thromboxane
Effect of Atherosclerosis on Responses of the Perfused Rabbit Carotid Artery to Human Platelets, 1206
Thromboxane A_2
Functional Implications of cAMP and Ca^{2+} on Prostaglandin I_2 and Thromboxane A_2 Synthesis by Human Endothelial Cells, 512
Thrombus lipids
Increased Lipid Binding to Thrombi in Coronary Artery Disease: Findings in Patients Without Premedication in Native (Not Anticoagulated) Test Systems, 1516
Tissue culture
Mitogenic Activity of Interferon Gamma on Growth-Arrested Human Vascular Smooth Muscle Cells, 1393
Tissue factor
Antithrombotic Effect of a Monoclonal Antibody Against Tissue Factor in a Rabbit Model of Platelet-Mediated Arterial Thrombosis, 948
Initiation and Regulation of Tissue Factor–Dependent Blood Coagulation, 1111
Thrombogenicity and Procoagulant Activity of Human Mesothelial Cells, 1428
Tissue factor pathway inhibitor
Initiation and Regulation of Tissue Factor–Dependent Blood Coagulation, 1111
Tissue-type plasminogen activator
Hypertriglyceridemia and Regulation of Fibrinolytic Activity, 19
Tranexamic acid
Antifibrinolytic Activities of α-*N*-Acetyl-L-Lysine Methyl Ester, ε-Aminocaproic Acid, and Tranexamic Acid: Importance of Kringle Interactions and Active Site Inhibition, 708
Transcription
Apolipoprotein B mRNA Abundance Is Decreased by Eicosapentaenoic Acid in CaCo-2 Cells: Effect on the Synthesis and Secretion of Apolipoprotein B, 691
Transgenic mice
The Role of Cholesteryl Ester Transfer Protein in Primate Apolipoprotein A-I Metabolism: Insights From Studies With Transgenic Mice, 736
Transmural pressure
Effect of Pressure on Aortic Hydraulic Conductance, 163
Transmural strain
Effect of Pressure on Aortic Hydraulic Conductance, 163
Transplantation
Accelerated Cholesterol Accumulation in Homologous Arterial Transplants in Cholesterol-Fed Rabbits: A Surgical Model to Study Transplantation Atherosclerosis, 771
Transport
Long-term Nicotine Exposure Increases Aortic Endothelial Cell Death and Enhances Transendothelial Macromolecular Transport in Rats, 1305
Transvascular transport
Effect of Various Blood-Derived and Semisynthetic Nutrient Media on In Vitro Uptake of ^{125}I-Albumin Across the Intact Porcine Aortic Endothelial Surface in an Organ-Support System, 357
Trapped ligands
Autoradiographic Analysis of the Distribution of ^{125}I–Tyramine-Cellobiose-LDL in Atherosclerotic Lesions of the WHHL Rabbit, 985
Triglyceride intolerance
Relation of Triglyceride Metabolism and Coronary Artery Disease: Studies in the Postprandial State, 1336

Triglyceride metabolism
LDL Subclass Phenotypes and Triglyceride Metabolism in Non–Insulin-Dependent Diabetes, 1496

Triglycerides
Abnormalities of VLDL, IDL, and LDL Characterize Insulin-Dependent Diabetes Mellitus, 920
Apolipoprotein B mRNA Abundance Is Decreased by Eicosapentaenoic Acid in CaCo-2 Cells: Effect on the Synthesis and Secretion of Apolipoprotein B, 691
Change in LDL Particle Size Is Associated With Change in Plasma Triglyceride Concentration, 1284
Continuous Infusion of Interleukin-1β in Rats Induces a Profound Fall in Plasma Levels of Cholesterol and Triglycerides, 1036
Correlation of Factor VII Activity and Antigen With Cholesterol and Triglycerides in Healthy Young Adults, 267
Docosahexaenoic and Eicosapentaenoic Acids in Plasma Phospholipids Are Divergently Associated With High Density Lipoprotein in Humans, 675
Effect of Dietary Fatty Acids on Serum Lipids and Lipoproteins: A Meta-analysis of 27 Trials, 911
Effects of a Monounsaturated Rapeseed Oil and a Polyunsaturated Sunflower Oil Diet on Lipoprotein Levels in Humans, 50
Familial Combined Hyperlipidemia and Abnormal Lipoprotein Lipase, 1176
LDL Particle Size Distribution: Results From the Framingham Offspring Study, 1410
Lipoproteins and Their Genetic Variation in Subjects With and Without Angiographically Verified Coronary Artery Disease, 58
Low Density Lipoprotein Particle Size and Coronary Artery Disease, 187
Normal Postprandial Lipemia in Men With Low Plasma HDL Concentrations, 972
Polarized Binding of Lipoprotein Lipase to Endothelial Cells: Implications for Its Physiological Actions, 1437
Relation Between Insulinemia, Body Mass Index, and Lipoprotein Composition in Healthy, Nondiabetic Men and Women, 393

Tritiated thymidine
Flow Affects Development of Intimal Hyperplasia After Arterial Injury in Rats, 963

Tumor necrosis factor–α
Prostacyclin Analogues Inhibit Tissue Factor Expression in the Human Monocytic Cell Line THP-1 Via a Cyclic AMP–Dependent Mechanism, 664

Tunicamycin
Regulation of Lipoprotein Lipase Secretion in Murine Macrophages During Foam Cell Formation In Vitro: Effect of Triglyceride-Rich Lipoproteins, 1458

Type III hyperlipoproteinemia
Cholesterol and Triglyceride Fatty Acid Synthesis in Apolipoprotein E2–Associated Hyperlipidemia, 106

Tyramine cellobiose
Autoradiographic Analysis of the Distribution of ^{125}I–Tyramine-Cellobiose-LDL in Atherosclerotic Lesions of the WHHL Rabbit, 985

U

Ultrasonic tissue characterization
Quantification of Atherosclerotic Plaque Composition in Cholesterol-Fed Rabbits With 50-MHz Acoustic Microscopy, 1227

Ultrasound
Frontiers in Cardiovascular Science: Quantitative Measurements of Atherosclerotic Manifestations in Humans, 114

Ultrasound imaging
Noninvasive Quantification of Atherosclerotic Lesions: Reproducibility of Ultrasonographic Measurement of Arterial Wall Thickness and Plaque Size, 261

Ultrastructure
Difference in Dilatation Between Endothelium-Preserved and -Desquamated Segments in the Flow-Loaded Rat Common Carotid Artery, 519

Urokinase-type plasminogen activator
Regulation of the Urokinase-Type Plasminogen Activator Receptor on Vascular Smooth Muscle Cells Is Under the Control of Thrombin and Other Mitogens, 1161

Urokinase-type plasminogen activator receptor
Regulation of the Urokinase-Type Plasminogen Activator Receptor on Vascular Smooth Muscle Cells Is Under the Control of Thrombin and Other Mitogens, 1161

V

Vampire bat plasminogen activator
Vampire Bat Salivary Plasminogen Activator Promotes Rapid and Sustained Reperfusion Without Concomitant Systemic Plasminogen Activation in a Canine Model of Arterial Thrombosis, 212

Vascular anastomosis
Delivery of Passivating Proteins to Sutures During Passage Through the Vessel Wall Reduces Subsequent Platelet Deposition by Blocking Fibrinogen Adsorption, 727

Vascular endothelium
Vascular Endothelium Responds to Fluid Shear Stress Gradients, 1254

Vascular graft thrombosis
Selective Factor Xa Inhibition by Recombinant Antistasin Prevents Vascular Graft Thrombosis in Baboons, 879

Vascular injury
Augmented Arterial Wall Expression of Type-1 Plasminogen Activator Inhibitor Induced by Thrombosis, 1507
Effect of Various Blood-Derived and Semisynthetic Nutrient Media on In Vitro Uptake of ^{125}I-Albumin Across the Intact Porcine Aortic Endothelial Surface in an Organ-Support System, 357

Vascular reactivity
Inhibition of Cyclic AMP– and Cyclic GMP–Mediated Dilations in Isolated Arteries by Oxidized Low Density Lipoproteins, 180

Vascular smooth muscle
Structural Changes and Recovery of Function After Arterial Injury, 307

Vascular smooth muscle cells
Oxidation of Low Density Lipoprotein Enhances Its Potential to Increase Intracellular Free Calcium Concentration in Vascular Smooth Muscle Cells, 231
Regulation of the Urokinase-Type Plasminogen Activator Receptor on Vascular Smooth Muscle Cells Is Under the Control of Thrombin and Other Mitogens, 1161

Vasospasm
Inhibition of Cyclic AMP– and Cyclic GMP–Mediated Dilations in Isolated Arteries by Oxidized Low Density Lipoproteins, 180

Very low density lipoproteins
Abnormalities of VLDL, IDL, and LDL Characterize Insulin-Dependent Diabetes Mellitus, 920
Associations of Lipoproteins and Apolipoproteins With Gradient Gel Electrophoresis Estimates of High Density Lipoprotein Subfractions in Men and Women, 332
Dietary Fish Oil Plus Lovastatin Decreases Both VLDL and LDL Apo B Production in Miniature Pigs, 902
Hypertriglyceridemia and Regulation of Fibrinolytic Activity, 19
Influx In Vivo of Low Density, Intermediate Density, and Very Low Density Lipoproteins Into Aortic Intimas of Genetically Hyperlipidemic Rabbits: Roles of Plasma Concentration, Extent of Aortic Lesion, and Lipoprotein Particle Size as Determinants, 6
Regulation of Lipoprotein Lipase Secretion in Murine Macrophages During Foam Cell Formation In Vitro: Effect of Triglyceride-Rich Lipoproteins, 1458

β–Very low density lipoproteins
Cholesterol Efflux Is Defective in Macrophages From Atherosclerosis-Susceptible White Carneau Pigeons Relative to Resistant Show Racer Pigeons, 1291

Vitamin E
Supplementation With Vitamin E but Not β-Carotene In Vivo Protects Low Density Lipoprotein From Lipid Peroxidation In Vitro: Effect of Cigarette Smoking, 554

W

Waist-to-hip ratio
Determinants of Plasma Fibrinogen: Relation to Body Weight, Waist-to-Hip Ratio, Smoking, Alcohol, Age, and Sex: Results From the Second MONICA Augsburg Survey, 1989–1990, 780

Watanabe heritable hyperlipidemic rabbits
Acute In Vitro Effects of Ethanol on Responses of Platelets From Cholesterol-Fed and Watanabe Heritable Hyperlipidemic Rabbits, 437
Autoradiographic Analysis of the Distribution of ^{125}I–Tyramine-Cellobiose-LDL in Atherosclerotic Lesions of the WHHL Rabbit, 985
Impaired Vasodilatory Response to Atrial Natriuretic Peptide During Atherosclerosis Progression, 99

Weight reduction
Persistence of Abnormalities in Metabolism of Apolipoproteins B-100 and A-I After Weight Reduction in Patients With Primary Hypertriglyceridemia, 976

Wilhelm C. Hueper
The Origin of the Council on Arteriosclerosis, 543

Workshop summary
Frontiers in Cardiovascular Science: Quantitative Measurements of Atherosclerotic Manifestations in Humans, 114

X

***Xba* I polymorphism**
Lipoproteins and Their Genetic Variation in Subjects With and Without Angiographically Verified Coronary Artery Disease, 58
